Truckee Republican

100th Year — No. 6 | TWO SECTIONS | TRUCKEE, NEVADA COUNTY, CALIFORNIA, WEDNESDAY, FEBRUARY 5, 1969 | TEN CENTS | PHONE (916) 587-3553 | SINCE 1869

One Man's Opinion

By CARL BRIGGS

The centennial next May celebrating completion of the transcontinental railroad seems to be taking some kind of shape in various quarters, including Truckee. The local chamber of commerce and historical society at last notice are coordinating their activities to make Truckee's part in the observance a memorable one, but progress reports to this date are a bit sketchy.

Meanwhile, communications from Southern Pacific Company, the Conference of California Historical Societies, and the Railway & Locomotive Historical Society all indicate the centennial will be well and truly celebrated up and down the main line and probably on all the spurs and sidings as well. And in the roundhouses. Maybe after all these years someone will succeed in cornering Nellie there.

There are a lot of ambitious plans afoot, including those of the above named organizations, and I will pass along what intelligence I have been able to decipher from their releases and proclamations.

There will be two special trains. One will originate in the Bay Area or Sacramento and will terminate in Truckee. The other will originate in Oakland at 9 a.m., May 9, and proceed to Ogden, Utah, and passengers riding this unit will be able to witness and participate in the observances at Promontory, the precise location where California's Governor Leland Stanford in his top hat and tails accurately and with uncommon alacrity did indeed drive a golden spike which forever joined east and west, a wedding of the rails which no man hath yet put asunder.

A state historical marker is scheduled to be dedicated at Truckee, probably on May 9, and I might inject here that it's nice to finally have our historical significance recognized.

The order of events also includes a parade in San Francisco, date undetermined; a luncheon at the Mark Hopkins Hotel on May 6, sponsored by the California Historical Society; a Sacramento parade and civic luncheon on May 8; a plaque dedication in Sacramento by the American Society of Civil Engineers on May 9; and probably numerous celebrations on May 10, the 100th anniversary of the driving of that spike — which, incidentally, resides on display in the Wells Fargo Bank in San Francisco, by permission of Stanford University, which owns it and considerable other memorabilia of the time.

(That whole business about driving a golden spike into a railroad tie is actually a bit of historical showbusiness. It's possible the governor did give it a symbolic whack or two, but any real gandy dancer worth his daily found would make a gold spike look like a frying pan with four strokes, possibly three.)

Locally, the very least we can expect is a plaque dedication, perhaps a parade, and certainly some colorful postures and exercises in pioneer spirit as interpreted by the neighborhood chapter of E Clampus Vitus, a group of gentle souls under the command of Russ Dickensheet, Noble Grand Humbug, providing he is fully recovered by that time from an alleged mysterious bout with the flu. Clamper observances are always rather formal and intellectual affairs, much like a Japanese tea ceremony, but we'll try to be patient and go along with their stuffy rituals.

This seems like a rare opportunity (once in a hundred years) for Truckee townspeople to really impress the flatlanders. Maybe we could burn Brickeltown again, just for old time's sake, raid the houses on Jibboom Street and hang a few cellestials from a water tower. THAT would impress the little old ladies at the Mark Hopkins.

Meet Canceled

Alpine Meadows' Junior Point Downhill meet was canceled due to course conditions and will be rescheduled this weekend.

TOTAL LOSS – Firemen from Homewood and Tahoe City fight the blaze Saturday that destroyed the David Bohannon house at Eagle Rock in Tahoe Pines. Firemen managed to save the fireplace and front wall of the building which was unoccupied at the time of the fire. The fire was discovered by a neighbor, Mrs. Bill Conners, who smelled smoke in her own house, looked outside to see smoke pouring from the front of which was almost buried in snow. Cause of the fire is still under investigation. —Sun Photo

SMOLDERING RUINS — Volunteer fireman from Tahoe City directs water into the smoldering ruins of David Bohannon house which burned Saturday at Eagle Rock in Tahoe Pines. Cause of the fire is still under investigation and although one wall and the fireplace were saved, the structure is listed as a total loss. A neighbor, Mrs. Bill Conners discovered the fire when she smelled smoke and looked out to see the smoke pouring from the roof of the Bohannon house. Equipment and volunteers from both the Homewood and Tahoe City fire sations responded to the fire. —Sun Photo

TUNNELED IN FOR THE WINTER – Mary Ann Conners, wife of Bill Conners, comes out of their back door into a one-way tunnel up and through the snow to reach the one-way road plowed out after last week's storms. Actually it would be easier to come out via the second story but Mary Ann said that's a little inconvenient since there are no outside doors, just windows up there. The Conners home is at Eagle Rock in Tahoe Pines. —Sun Photo

Explosion, Fires Plague Area In Wake Of Storms

Two men suffered flash burns Saturday, Feb. 1, attempting to light a floor furnace in an unoccupied house on Campbell Drive at Incline Crest.

Paul H. Wright, project manager for Incline Crest, suffered second and first degree burns. Treated at Tahoe Forest Hospital, he was transferred Monday to St. Mary's Hospital in Reno.

His assistant Donald Leal, 31, of Kings Beach, received minor burns, was treated and released.

Apparently Wright discovered Saturday morning that a fire had occurred sometime previously inside the house causing extensive damage to the interior, then had ceased burning from lack of oxygen.

After the previous fire was discovered and prior to the accident that caused the flash burn injuries, neither the fire department nor the Southwest Gas Corp. were called to the scene.

"Anyone who discovers a fire or evidence of a previous fire, should notify the fire department immediately," said Chief Jack Kissinger of the North Lake Tahoe Fire Protection District of Incline and Crystal Bay.

"When we respond, we immediately notify the Southwest Gas Corp., Sierra Pacific Power Co., and the Washoe County Building Department. Then a full investigation can be made.

"This was potentially a very dangerous situation.

"A fire in a home or any structure can burn slowly, can be burning yet barely warm to the touch. The fire can be what is called a 'sleeper,' be burning very slowly in a wall, the attic, any concealed area.

"And a fire which has burned out the oxygen in a building is the most dangerous of all. There may be no flame. It can be barely smoldering. The heat in the airtight building can go up to anywhere from 800 to 1,000 degrees.

"All that's needed under these circumstances is just a little oxygen and away she goes. If someone has opened a door or window and is standing in the way, he can get blown clear into the street."

Chief Kissinger said that during the investigation of the Incline Crest flash fire, it was discovered the original fire had cracked two windows and "if they had gone the whole house would have blown up."

Time and cause of the original fire is still under investigation. It is suspected, however, it may have been caused by clothing or other inflamable objects hanging in close proximity to the floor furnace. The house belongs to Allen P. Gordon of Palo Alto.

"Fortunately, this one was not a 'sleeper', said the chief.

When Wright and Leal attempted to light the floor furnace in the basement a flash fire occurred. This apparently was caused by natural gas which had collected in the basement.

Boy Drowns At Soda Springs

Three-year-old Mark Riddle, the son of Mr. and Mrs. Grant Riddle of Cupertino, slipped down a 15-foot bank of snow into the Yuba River at Soda Springs and drowned Tuesday morning.

The Riddles had checked into Beacon Hill Lodge Monday night to enjoy the Donner Summit winter sports. About 9 a.m. Tuesday, Mark was playing near the lodge with his 7-year-old sister when he wandered off toward the river.

Sgt. Roy Waters, officer in charge of the Nevada County Sheriff's substation at Truckee, recovered the boy's body at 11 a.m. in about two feet of icy water in the riverbed.

January Storms Force Lake Tahoe Drawdown

RENO – A San Francisco federal court has authorized a precautionary drawdown of Lake Tahoe because heavy January storms left enough moisture in the basin to threaten the lake's maximum agreed elevation of 6,229.1 feet above sea level.

Federal Watermaster Claude Dukes began boosting outflow over the weekend in blocks of 50 cubic feet per second (cfs) and today started picking up Tahoe releases by 100 cfs a day.

Up until Friday he had been releasing the 50 CFS at Tahoe City necessary to maintaining the fishery in the Truckee channel for the first few miles below the outlet gates.

After Dukes gets releases up to 1,000 cfs, he and other experts will evaluate whether this will get enough water out of Tahoe to prevent it from exceeding the agreed maximum surface elevation.

Dumping water from Tahoe became necessary when the surface Friday climbed to 6,228.29 feet above sea level, leaving only about 10 inches to hold basin snow when it starts melting.

Increased releases are expected to take more than 100,000 acre feet of water out of the lake.

Outflow was boosted slowly because at some points in the channel substantial deposits of snow and ice have accumulated. These need to be washed down stream to prevent flooding.

Dukes expects Truckee flows through Reno to range between 1,400 and 2,000 cfs for at least the next two months. That amounts to three to five times winter floristan rates fixed by a federal court decreases.

Lake Elevation

Weekly report from Sierra Pacific Power Co. measured the elevation of Lake Tahoe on Friday at 6,228.15 feet Fifty cubic feet per second was being let into the Truckee River and snow depth at the lake was 60 inches.

Donner Beach Acquisition Called 'Possible But Remote'

Members of the Truckee Donner Recreation and Park District board and community members attending a special district meeting last week were told acquisition by the district of Donner Lake's west end beach is still a possibility though "it appears remote."

"The problem is not whether the property is available; the real problem is getting that much money (an estimated approximation of $450,000) for this little piece of property," said Donald W. McMurchie, park district attorney.

"Regardless of whether the property has been sold or not, you still have the right of 'eminent domain,'" said McMurchie.

McMurchie explained that "eminent domain" is the right to take for public use by paying the owner the market value of the property, usually through condemnation proceedings.

"But you need the money first, before you can start any kind of negotiations," the attorney said.

McMurchie said he had contacted some 10 or 15 state and federal agencies which do make grants but so far none would consider this purchase.

"And if a grant were available we would still need to raise 50 per cent of the purchase price to consumate the deal. I know of no grants that do not have to be met with matching funds."

Board chairman Harry Jamason reported he, McMurchie and board member Henry Schwarz had spent two days investigating possibilities regarding the west end beach.

The group contacted the county planning commission to find the area is zoned commercial and talked to Fred Hodder, manager of the Truckee Sanitary District, who "gave us some ideas to explore."

It was noted among other possibilities that the beach area might be secured and developed on lease for recreation. Hodder announced that the rumored sale of the property was not yet an accomplished fact, that the seller had a prospective buyer "and a handshake," that is all."

In other business, Dr. Ray Wiser, president of the Truckee Donner Horsemen, said the group disapproved of an indemnification clause in a proposed agreement between the horsemen's group and the recreation and park district for use of district property.

McMurchie said the district, its insurance carrier, and the state require this and the state sets the limits of liability (which must be provided by the horsemen). It was revealed the state is involved because "we're using state grant funds for our share of federal money," said Jamason.

Following minor rewording of the document worked out at the meeting by the attorney, board members, and Wiser, the horsemen's president said he would take the agreement back to his group for final approval.

In other business the board voted to establish district employes on the county group insurance program. Heretofore they have had no coverage except the state industrial insurance required of all agencies.

Board members Harry Beyer and Charles Spillner were appointed to screen some 35 applications for district superintendent.

Applications will be sifted down to five or seven for consideration by the board at its regular meeting next Thursday, Feb. 6, 8 p.m. at the County Building, Gateway.

Before the meeting was adjourned, members of the audience brought up the subject of the December dismissal by a three to two vote of the district superintendent, Dr. Henry Tapia.

John Himler said the three board members voting for dismissal had agreed to give a press release and had not yet done so. The release was to reveal specific charges covered by the publicly stated reasons of "conduct unbecoming" and negligence. Several members of the audience participated in pros and cons on the subject.

Attorney McMurchie said legally the board members did not have to give any further information since they had the right to discuss and dismiss the superintendent in a closed session.

Himler suggested the board secure a tape recorder to record the meetings. McMurchie said this is often done by such boards, but the tape recording still does not constitute official minutes, only serves as an aid in recording the minutes.

Park Board To Meet Again This Thursday

Directors of the Truckee-Donner Recreation and Park District Thursday night are expected to take action to fill the vacancies of superintendent and clerk of the district.

It is unofficially reported that more than 30 applications have been received for the position of superintendent, an opening created when Dr. H. P. Tapia's dismissal became effective Jan. 1. Dr. Tapia has reapplied for the job, charging that the board applied petty politics in requesting his dismissal.

The clerk of the board, Mrs. Belle Garcia, resigned, effective the same date as Tapia's dismissal. A committee has been named by the board to screen the applications and is expected to report on its findings at Thursday's regular session.

In other actions Thursday, the board will elect a chairman and secretary, discuss the possibility of purchasing the beach at the west end of Donner Lake and conduct other routine matters but with emphasis on the selection of a superintendent and clerk.

The dismissal of Dr. Tapia as superintendent of the district has resulted in heated controversy with the board, as well as the general public, divided on the issue.

DISCUSS PUBLIC BEACH – Truckee Donner Recreation and Park District attorney Donald W. McMurchie of Sacramento, chairman Harry Jamason, and members Charles Osburn and Harry Beyer from left, discuss possibilities of acquiring Donner Lake's west end beach. "There are lots of alternatives," said McMurchie who is aiding the board in efforts to obtain use of the beach for recreation. Other board members present were Charles Spillner and Henry Schwarz. —Sun Photo

Letters To The Editor

EDITOR, SIERRA SUN:

Many times society is hasty in criticizing our youth. But when visitors come to Kings Beach they know or feel assured that it could not be true there.

Specifically speaking, our car stalled on one of the streets of Kings Beach. No aid was offered by AAA or NAA. Believe me, we begged for help! I sat in our car and deliberated as to what we should do in this emergency. Many cars passed without stopping, when all of a sudden this large truck stopped and out walked these two young men offering their assistance.

Later, two other young men came to our assistance. Together, these four young men used their knowledge and ingenuity to start our car.

We were so relieved, so much so, that we offered a tip for all four of them. This they flatly refused, with the reply this was a "courtesy of the boys of Kings Beach."

We hope you'll be able to publish this in token of our own way of thanking them. We wish them all the luck in the world, for the future is bright for young men like these.

(EDITOR'S NOTE: The letter was signed "Skiers from the Bay Area," and while our policy requires letters to be signed clearly with the name and address of the writer, we are happy to make an exception in this case.)

* * *

EDITOR, SIERRA SUN:

We sould like to inform you of the success of a hometown boy. A senior at San Jose State College, majoring in foreign languages and minoring in physical education, Luis Mintegui is a member of the San Jose State soccer team which recently placed second in the National championships in Atlanta, Georgia, defeating UCLA, University of San Francisco, Air Force Academy, and finally losing to the champions, the University of Maryland, on December 6.

Mintegui was recently voted by his coach and fellow players the most outstanding player of the 1968 soccer season at a banquet honoring the outstanding athletes of the season. He is the son of Juan and Carmen Mintegui, a graduate of Tahoe-Truckee High School in 1964, and a graduate of Sierra College in 1967.

We hope that you will recognize the achievement of a hometown boy and publish this recognition of the young man.

Department of Athletics
San Jose State College

(EDITOR'S NOTE: We can't always keep up with the accomplishments of our far-flung sons and daughters, and we are pleased to pass along the word about Luis Mintegui and to wish this hometown boy continued success.)

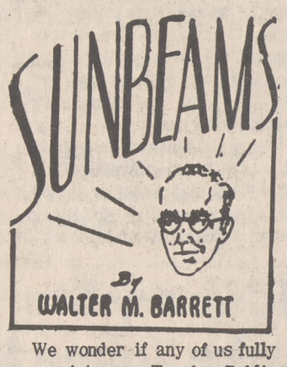
SKIER'S GAZETTE
ASPEN, COLORADO
(Copy to the Sierra Sun)
Gentlemen:

We read in your January 14 issue that California skiers Cheryl Bechdolt and Wally Rothgeb won the honors in the 28th annual Snow Cup at Alta recently. It was also noted that Cheryl was from "Mammoth." This is erroneous. Cheryl was born and raised in Tahoe City, the same area that produced Olympian Jimmy Huega.

Cheryl comes from a long line of ski enthusiasts. Her father, Bill, is innkeeper and owner of the landmark "Tahoe Inn" in Tahoe City and a former avid racer himself. Her uncle, Carl Bechdolt, also was a jumper and racer in the "good old days." Cheryl's entire family (there are five children) are raised on the ski slopes and they give Cheryl their blessings when she wins.

We at North Lake Tahoe are very proud of our young enthusiastic great skier and sports girl, Cheryl, who brings great credit to our area.

Betty Layton, Manager
Greater North Lake Tahoe
Chamber of Commerce.



We wonder if any of us fully appreciates our Truckee Public Utility District.

It is natural for us to accept the services we receive from the district as a matter of course, giving little thought to the work that goes into providing that service. We believe, however, that the people responsible are entitled to more than passing recognition.

We often read and hear of power outages in large cities which last for hours and even days because of storm conditions, but in Truckee where storms are rather extreme and far more fierce than in most cities, even a brief outage is noteworthy and quickly corrected.

Of course, we pay for this service, but the pay is not any more, and often far less, than that in the major cities and areas operated by major companies. We are inclined to believe that our superior service is due largely to the personnel of the district and the fact that each customer is given personal attention when that is possible.

During a recent severe storm, when wind and heavy snow were toppling trees and breaking lines one after another, the men from the utility district kept constantly on the job, making repairs and fighting terrific odds against mother nature at her worst. During the storms the men work at times 24 hours a day under conditions which are near unbearable, cold and tired, atop poles where the wind and snow are paralyzing, handling "hot" wires and actually facing disaster so that our lights go on when we touch a switch and our heaters continue to provide warmth and comfort.

We have a great deal of respect for these men and believe they are worthy of more appreciation than they receive.

Court Receipts

Cash receipts of the Nevada County Justice Court in Truckee for January totaled $6,972. They were derived from traffic fines in the amount of $6,862, fish and game, $50, criminal fees, $5.; and civil actions, $55.

Lahontan Water Board Watching TCPUD For Effluent Violations

The Lahontan Regional Water Quality Control Board last week voted four to three defeating a motion to issue a cease and desist order against the Tahoe City Public Utility District.

The district has been charged by water board engineers with allowing sewage to flow into the Truckee River for some 40 hours on Jan. 21 and 22.

William Layton Jr. TCPUD manager said it was the feeling of his board that the cease and desist order would have served no purpose.

"We had an extremely severe once – in – 30 – years storm — enough that Gov. Reagan has declared California a disaster area. This storm caused excessive flow here," said Layton.

"Had it been a normal winter or even a severe winter, we would not have discharged."

Layton noted that elements of the present system were not of sufficient capacity to care for this temporarily excessive flow. He said replacement of the present seven pumps is already under contract with Glanville Construction Co. Everything is being done that can be done, he said.

Water board control engineers Fred MacLaren and Dave Dubois contended additional preventive measures could and would be taken under a cease and desist order. Staff, management and the board of Lahontan were instructed to be ready to confer and determine corrective measures to prevent future discharges and to call a special meeting if necessary to issue a cease and desist order.

Voting in favor of the action last week were Gale O. Kenyon, Mrs. Mary C. DeDecker and E.D. Lemon. Defeating the action with "no" votes were John M. Bernard, Robert J. Daneri, Walter W. Rollins and William A. Alpers.

Hodder Urges Interim Agency

Alfred Hodder, of Truckee, representing the League to Save Lake Tahoe, has strongly urged immediate passage of a bill to create a Nevada Interim Tahoe Planning Agency.

Appearing before a committee of the Nevada Legislature last Tuesday, Hodder said the proposed agency would have authority to control planning, land use and water pollution on the Nevada side of Lake Tahoe. The action would be taken pending consent of the U.S. Congress to a permanent California–Nevada bi–state agency recently approved by the California and Nevada Legislatures.

The Interim Agency was proposed by Nevada Governor Paul Laxalt, and an appropriate bill introduced in the Nevada Legislature by Senator Coe Swobe of Reno and Assemblyman Lawrence Jacobsen of Minden.

Hodder stressed the critical importance of the Interim Agency in order for Nevada to get an early start on planning and water pollution controls prior to creation of the permanent agency.

'Grace' On Nevada Plates

CARSON CITY – Nevadans without the new silver–letter–on–blue 1969 license plates have a few more days of grace before they'll be cited for failing to purchase them, officials note.

Individuals without the new plates will have to pay an extra $6 now, though, since the deadline was Jan. 31.

James Bailey, director of the Nevada Department of Motor Vehicles, has asked law enforcement authorities to hold off on citations a few days to allow processing of late–postmarked mail–in renewal forms.

Turn Lanes Safety Measure

"Two–way left turn lanes can be a valuable aid in preventing traffic tie–ups, but they must be correctly used," Lt. O. P. Ledford of the California Highway Patrol states.

Two–way left turn lanes are designated by parallel dashed double lines on each side of the lane. They are set aside for use by vehicles making left turns in either direction, into or from the highway.

"If a vehicle pulls onto the lanes at a right angle to the markings, the front or rear of the turning vehicle extends into the lanes of moving traffic, thus impeding traffic," Lt. Ledford said. "The purpose of the turning lanes is to prevent this type of highway hazard."

A driver making aleft turn onto a street from a shopping center parking lot or other driveway should take the action in two parts. First, watch for a break in traffic in the close lanes, then drive into the center lane, turning left so that the car is parallel to and between the dashed lines. Second, at the first safe opportunity, move from the center lane into the regular traffic lane, thus completing the turn.

Leaving the highway, drivers should not use the lane for long distances of travel, since these are two–way lanes.

"Pull completely into the lane, parallel with the lines, close to the place where the turn is to be completed," the Lt. advises. "Then wait for a traffic break to cross to the driveway to be entered."

Nevada County Supervisors Looking For More Information On Bills And Claims

Nevada county's supervisors should know more about what they are approving when they authorize payments of bills each week, one of the members maintained Tuesday.

Supervisor Dean Lawrence objected to almost automatic approval of claims at the start of each meeting, contending she doesn't have an opportunity to scrutinize items.

Supervisor Ralph Buchanan, who like Mrs. Lawrence is a new supervisors, agreed. They feel the past procedure of presenting the bills to the board on Tuesday morning needs revision so the members can see the claims sooner and have more time to study them.

In fact, they voted against paying last week's claims because they had not had time to peruse the items. However, payment will not be held up as the other three supervisors voted to approve them.

Auditor John T. Trauner said the weekly claims list could be inspected by supervisors at his office on Monday afternoon, but Mrs. Lawrence said that would not give her sufficient time to check items on which she might have a question.

She asked if the claims could be presented to the board sooner perhaps the preceding Friday.

"We'd have to back everything up," Trauner replied, explaining that each week's claims must be submitted to his office by the preceding Wednesday. They have to be held five days by law before payment is approved, he indicated.

The supervisors took no action on that approach and decided to think the whole thing over for a week before deciding on the procedure they will use.

Mrs. Lawrence emphasized several times that she is not contending that any claims are improper, "Believe me, my heart is warm and tender," she said.

But, she added, "I still don't like approving something I don't know a single thing about."

Earlier she had noted that "I realize my speaking up like this will not make me popular, but we must have to go over it (the claims list) or we wouldn't be asked to approve it."

Trauner explained as he had when the subject first was raised a couple of weeks ago that most items on the claims register are backed by contracts and by purchase orders and thus do not require board approval. However a list of the claims must be filed with the board.

Some other claims, such as utility bills, do require board approval.

He added that it once was the practice for the board to approve every bill one by one, something most local agencies have eliminated to save time, the most recent being Grass Valley Elementary School Board.

"Whether you approve them or not is up to the board," Trauner said. "My policy is to present them to the board."

Chairman William Thomas said this is good because it gives the supervisors a way of seeing what was bought and spent.

Buchanan likened approving the bills without knowing what they are to "recommending a person you don't know."

Local Rainfall Has Passed Yearly Average

With eight months to go before the reporting year, the U. S. Forest Service at the Truckee office reports precipitation is more than an inch above normal for the entire year.

Total precipitation for the year normally is 31.65 inches and to the end of January a total of 32.69 inches has been recorded, according to the official tabulator, Henry Toccalini.

Much of this was in rain and wet snow, with 60 inches measured on the ground in Truckee currently.

The precipitation during January totaled 19.69 inches. Either rain or snow, or both, was measured in 18 of the 31 days.

Despite the heavy winter, damage has been held to a minimum. Roads have been closed for brief periods, power outages were brief due to falling trees and broken lines and the roof at the Fibreboard Mill's planning plant was crushed under the weight of the wet snow.

Donner Lake was frozen over for the first time this winter during last week.

Owners of unattended summer homes in the region have been warned that the heavy snow is creating a dangerous situation and may cause other structures to collapse.

News From The Past

25 Years Ago

From Sierra Sun
Feb. 10, 1944

The discussion over the ownership of the land under Donner Lake entered a new phase and a more hopeful one this week when the general lands office and the United States Department of the Interior and the state division of lands held the California Division of Waters Resources was in error in holding the lake bottom privately owned and the lake non–navigable.

Assessor Prepares To Make Relief Payments

Frank R. Chilton, Jr., Placer County Assessor, announced last week that his office will begin mailing out approximately 15,000 claims for the 1968 "Homeowners Property Tax relief Payments" on February 4. If you owned a home in Placer County on March 1, 1968, which was your principal place of residence and you don't receive a claim in the mail by February 15, you are urged to contact the assessor's office on the second floor of the courthouse, write a letter requesting a claim, or phone 885-7711 extension 291. Similar announcements were made in the Nevada County Assessor's office and in other California counties.

In order to receive the $70 refund on your 1968-69 taxes as provided for in Proposition 1A, which was approved by the voters last November, the claim must be filled in properly and returned to the assessor's office propr to April 15. (There is no provision for late filing).

To meet the requirements for the refund (officially called the Homeowner's Property Relief Payment), a homowner must generally have owned and occupied a single family home or duplex as his principal place of residence on March 1, 1968, and must not have received a veterans exemption on the 1968 tax roll nor received a partial or full allowance for taxes by a governmental agency.

If the dwelling is owned jointly, any of the joint tenants, such as husband or wife, may file for the refund. A home otherwise qualified and being bought under a contract of sale (mortgage) is eligible provided the applicant is the legal owner. Among these that do not qualify are renters, owners of property vacant or under construction and not occupied as a principal place of residence on March 1, 1968, and vacation or secondary home properties.

All claims for the $70 tax relief payment must be processed by the assessor's office. The actual refund check will be mailed to all qualified homeowners from the state controller's office in Sacramento on or around June 15.

The passage of Proposition 1A, of which the $70 refund is only a part, has created a tremendous additional work load for the assessor's office for the current year. Homeowners are urged to fill their claims out accurately and file them promptly in order to insure that they will receive their $70 refund.

Carole Hopkins Married In Reno Ceremony

St. John's Presbyterian Church of Reno was the setting for the marriage of Carole Lynne Hopkins and David L. Fuhrman on January 18 with Dr. W. C. Clawson, Jr. performing the ceremony.

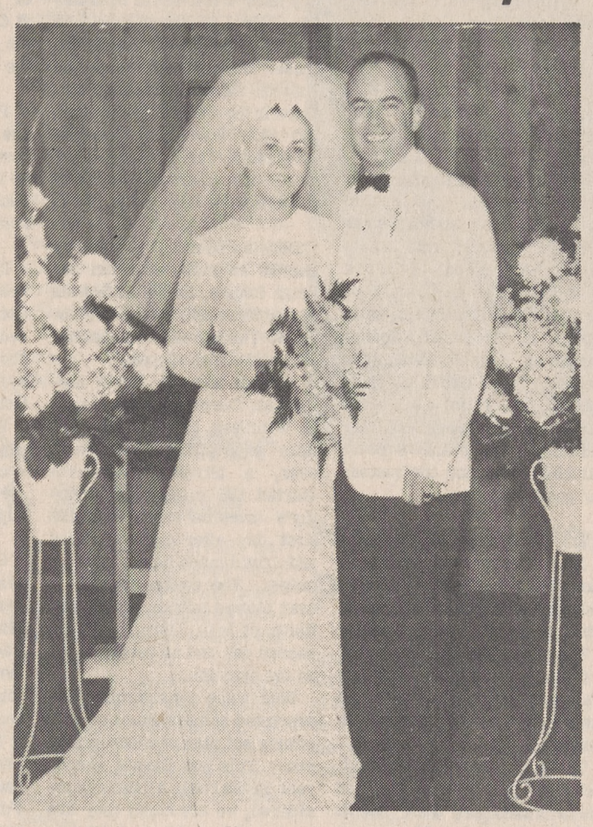
Tonnie Gay, the bride's sister, was matron of honor. The bridesmaids were Jeanne Spitzen and the bride's cousin, Donna Dickensheet.

Dr. Richard Maffi served as best man and Howard Nielsen and Gerald Gay seated the guests.

The bride, daughter of Mr. and Mrs. Wayne Hopkins of Tahoe City, graduated from Tahoe-Truckee High School and Reno City Business College. She was employed as a secretary in Tahoe City until her marriage.

Her husband is the son of Mr. and Mrs. R. B. "Roc" Fuhrman of Reno. He attended Reno schools and the University of Nevada. He is employed by Fireman's Fund of Reno.

After a reception in the Skyroom of the Mapes Hotel, the couple left for a honeymoon in Hawaii.



WED IN JANUARY – Carole Lynne Hopkins of Tahoe City was married January 18 to David L. Juhrman at St. John's Presbyterian Church in Reno. The couple will make their home in Reno.

Bible Wants Added Land For Indians

Senator Alan Bible Friday reintroduced legislation to provide additional land for community development in the Washoe Indian Reservation of Nevada and California.

It was identical to a Bible measure of the 90th Congress that failed to get final action. Rep. Walter Baring of Nevada and Rep. Harold T. Johnson of California introduced a companion measure in the House.

"Indian rights to this land – about 80 acres in California's Alpine County – must be protected," Bible said. "I urge the concerned committees of both Houses to expedite this legislation."

Specifically, Bible said, the land already in federal ownership is needed for an Indian housing development. He said the Interior Department and interests in both California and Nevada had reached agreement on the proposal.

Once the necessary land is placed in trust for the Washoe Tribe, Bible said, he would be prepared to push for early approval for housing assistance.

Tinker Belles To Sugar Bowl

The Sierra Tinker Belle Garden Club plan to have their next meeting at Sugar Bowl February 11, a luncheon at the Lodge.

President Johnnye Smith has named the following committee chairmen for the new year: membership, Hazel Hall; courtesy and field trips, Lucille Quilici; penny pines project, Mabelle Hadley; publicity and winter meetings, Vi White; flower show, Marika Cattan; hostesses, Selina Studer.

A membership tea will be held April 8 at the home of Norma Russell.

Helen Fallis of the Village Green mobile park became a new member at the January 14 meeting at Richie's.

Johnson On District Budget

Continuing his analysis of the proposed budget for the fiscal year commencing next July 1, Congressman Harold T. (Bizz) Johnson of the second, mountain-valley counties, District revealed today that the U. S. Geological Survey will spend some $3,134,000 in the 20 counties of the second district if the budget is approved as submitted.

"This is the estimate given me by the Department of Interior," Johnson explained, "with the bulk of the funds earmarked for surveys and mapping of geologic and mineral resources.'

Congressman Johnson said some $2,300,000 probably will be spent in the second district for this purpose. This is about the level of spending which has been in effect for the past two years.

Other budget estimates for the coming fiscal year include:

Topographic Surveys and Mapping, $16,100; Minerals Discovery Loan Program, $20,000; Water Resources Investigations, $689,300; Soil and Moisture Conservation, $1,000; Conservation of Lands and Minerals, $26,000; General Administration, $77,600; Lead and Zinc Stabilization, $4,000.

Representative Johnson pointed out that throughout the State of California, the Geological Survey would spend some 9,016,400 during the coming fiscal year, an increase of about $200,000 over the current year's budget.

"We in the 20 counties of the Second Congressional District," Johnson said, "have a major stake in the geological resources of our state and I, as your Representative In Congress, will work to see that this program moves ahead at a reasonable pace."

Johnson said that the Department of Interior's budget for the entire State of California amounted to some $168,000,000 and for the second district amounted to almost $44,000,000.

A Wedding Of Interest

A pre-Christmas wedding of interest in the Lake Tahoe-Truckee area was that of Marianne Moore, daughter of Mr. and Mrs. Robert Moore of Truckee and Richard Pomin, son of Mr. and Mrs. Joseph Pomin of Homewood.

The newlyweds are well known in the community, having graduated from Tahoe Truckee Union High School and since have been attending college. They have established their home in the Florin District of Sacramento while Pomin is studying many phases of computor machines.

Kings Beach Gets Traffic Signal

A project approved today by the California Highway Commission will promote traffic safety on Route 28 near Kings Beach.

Recommended by James A. Moe, State Director of Public Works, the project calls for installing traffic signals at the junction with the Truckee shortcut, Route 267.

Give Warning On Avalanche Possibility

Skiers, snowmobile enthusiasts and anyone working in the mountains are warned to be cautious of avalanche danger.

Carson District Ranger Sherman Boyce said due to the continuous deep snow and high wind which have gripped the Sierra the last two weeks, avalanche danger is extreme.

"Areas that normally are safe are now overloaded with snow and can avalanche at any time," said Boyce.

He warned that skiers should stay within developed ski areas and not plan any ski tours out of developed sites until at least a week after this storm cycle ends.

Snowmobile operators are urged to stay on flat terrain. The ranger stressed even small gullies and cuts are extremely dangerous and avalanches of all sizes are occurring throughout the mountain areas.

Squaw Valley Injury Suit

Squaw Valley Development Company has been sued for $100,000 by a man who claims his neck was broken when his clothes became entangled in a moving lift chair which carried him for 100 yards before he fell 60 feet to the ground.

Plaintiff William Eguardia said the freak accident occurred at Tower 20 last December 1 when he was shoveling snow from the platform.

Eguardia's lawyer is George H. DuFort of South Lake Tahoe.

Metzon Assigned

Army Specialist Four Jorgen Metzon, 24, son of Mr. and Mrs. Martin D. Metzon, 1900 Crestshire Drive, Glendale, Calif., was assigned Jan. 4 to the 173rd Airborne Brigade in Vietnam as a cook.

His wife, Johanna, lives in Truckee, Calif.

Sierra Skiing

By VI and CARSON WHITE

While all of you were digging out again last week, the Loren Russell's and White's headed for that top U.S. ski resort, Sun Valley, Idaho. We found the natives there also at the task of digging out from the deepest snowfall since the big storm of 1952. Removing five feet from their roofs was no easy job.

With temperatures falling as low as 22 below zero and a few inches of fresh powder each night and waist deep untracted fluff, it was really a skiers dream come true. The compaction crews were working 'round the clock to get slopes in shape for those who like packed runs, and that made skiing so easy that just rolling the eyeballs did the truck, perfect turns.

All the runs were open except the famous bowls; it took several days to dig out the Broadway Lift of eight feet of snow, then Christmas Bowl and Inhibition Run were open. By next ski season, a new lift can be taken that will serve Lifty, May Day, Lookout and Easter Bowls and open the top of Broadway run. Should be great.

One can keep so busy with extra activities at Sun Valley that it's hard to find time to even sleep. So many good gourmet restaurants to choose from; those we had time for were The Ram in the Challenger Inn, the Ore House in the Mall, the Trail Creek Cabin reached via horse drawn sleigh, and the 319 in Ketchum, where that world speed champ Ron Funk is tending bar and needless to say can be seen bombing the slopes all day.

There was an exciting broom hockey game on the outdoor ice rink between the Baldy and Dollar Mt. ski instructors, a swim in the outdoor heated pool, and dancing to all kinds of music, swingin down in the Lodge Boiler Room, and upstairs in the sedate Duchin Room, waltzing.

We were pleased to see Caryn West's picture in the Salt Lake Tribune with other winners of the Lowell Thomas Classic race held at Park City. Skiing for Sugar Bowl, Caryn placed second just 4.7 behind the winner of the two slalom runs, Geraldine Shimer from Mammoth. That race was plagued with too much snow and power failure, and just times of the slalom runs on Saturday were used to determine the top finishers. Graig Corder of Salt Lake won the men's event.

Enjoyed seeing Maggi Cutter formerly from Squaw Valley, who now owns the Sun Valley Gift Shop. Several Californian's were skiing; a group from the Oakland Ski Club, and Blanche Meyer from Squaw Valley.

* * *

The Northern California and Nevada Winter Sports Writers are meeting at Incline Village this weekend and will be on hand to cover the Eugenia Lary Slalom meet Sunday for FWSA Veterans.

A race clinic is scheduled for Saturday at Ski Incline. The clinic at Boreal Ridge was such a tremendous success the Vets voted to have another. Mike Brunette will be head coach.

* * *

A Junior Giant Slalom is to be held at Boreal Ridge for Jr. C, Jr. IV and V FWSA racers Sunday.

* * *

The Nevada Winter Carnival starts off Sunday for a week of exciting events. A snow sculpturing competition and torchlight parade will be held Sunday, a fashion show Wednesday, a snow show for Thursday when the visiting ski teams compete in their annual zany productions, Friday will start the competition with a cross country meet at Mt. Rose.

Teams from Sierra College, Chico State, College of the Siskiyous, Tahoe Paradise, Northern Arizona, University of California, at Berkeley and Davis, and Stanford and Oregon will vie for trophies against the strong Nevada team.

February 15 and 16 will have ski races and jumping, at Mt. Rose and Sky Tavern.

Incline High

INCLINE VILLAGE – The Highlanders of Incline Village are still waiting for their first win after two weekend losses dropped their season record to 0–11.

Friday night, Incline led, 30–22 at the half on some fine shooting by Win Smith and John Tackitt, but Charlie Gierhart connected for 22 for Lovelock to lead his team to a 53–47 triumph.

On Saturday, Tackitt hit 13 for Incline, but Gerlach put four men in double figures for a 54–36 victory.

HAPPY WANDERERS – And who wouldn't be happy to be in the climate pictured here during the past three weeks? Enjoying the sun at balmy Sun City, Arizona, are Alex and Hazel Stewart of Truckee's Ponderosa Golf Course.

Davis And Reese Headline Circus Room At The Nugget

The inimitable comedy team of Davis & Reese continue to headline the Circus Room marquee of John Ascuaga's Nugget nightly (except Mondays) from 8 p.m. until 2 a.m. with a highly talented second act, Edell and The Thunderbirds. The groups play the Nugget through February 21, when Fred Waring and His Pennsylvanians make a three-day Circus Room engagement.

Pepper Davis and Tony Reese are featured in an all-new show backed by a talented group of musicians highlighting the "in" sound. The comedy duo also presents their "bag," a wild array of levity, singing, dancing, playing instruments and displaying acrobatics.

Edell and The Thunderbirds feature a country ho-down, a Mills Brothers medley, music from the twenties, and "now" orchestrations.

Rounding out the great evening's entertainment are the Nugget's amazing elephants, Bertha and Tina, trained by C.J. Madison and assisted by Stephanie.

Fire-Ettes Call Meeting, Plan Party

The next meeting of the Fire-ettes will be February 14 at Donner Lake Lodge.

Hostesses will be Ruth Morey and Florence Waters.

A cocktail party will be given by the firemen at the Truckee Firehouse before dinner. The Truckee Lions Club and their wives have been invited.

Installation of officers will take place that evening with Felecia Lomax in charge.

Trem Talk

By BETTY SHIVELY

January has always been a rather abnormal month for weather, but the heavy snows haven't really seemed to hinder our basketball team. The big news of the week is the double varsity victory over the Colfax Falcons Friday night and South Tahoe Trojans Saturday night. Shoveling snow at home for three days may be the secret for these boys!

* * *

Last week the U.C. Davis campus hosted the Junior Statesman Convention. Many TNT students took part in the gathering and gained knowledge — not to mention the fun enjoyed on the bus ride!

* * *

Wednesday morning many of the seniors took the Air Force Aptitude test – both boys and girls. This test chanels the way for the students future careers.

* * *

Report cards were a welcome sight seventh period Friday.

* * *

Students' pleas for the week: "Please turn up the heat!"

Court Cases In Truckee

Six individuals pleaded guilty to traffic offences last month in Judge F. W. Wilson's Justice Court at Truckee.

Manuel Fernandez of San Francisco was fined $360.00 for driving while under the influence of alcohol. Steven Paul Thomason of Truckee was sentenced to 20 days in jail and fined $60.00 for driving while his driver's license was suspended. Herman Childs, also of Truckee was sentenced to 10 days in jail and fined $240 on the same offence. Rudolph Inderbitzen of Truckee drew 10 days in jail and was fined $360.00 for driving while his driver's license was suspended. Albert Junior Tuescher of Sacramento was fined $360.00 for driving while under the influence of alcohol. Mohammond Khatami of San Jose was fined $19.00 for driving without chains in a chain control area.

List Boundary Changes For Toiyabe Forest

Congressman Harold T. (Bizz) Johnson, representing Nevada and Sierra Counties, last week revealed the Toyabe National Forest has filed application to modify its boundaries to include some additional isolated federally owned tracts now under the jurisdiction of the Bureau of Land Management.

Congressman Johnson was notified of the proposed action by the Bureau of Land Management. A total of 1,862 acres of public land located in Sierra and Nevada Counties is involved in the proposed modification.

National Forest Officials contend that the proposed transfer of the Public Domain Lands from the Bureau of Land Management to the Forest Service, would facilitate efficient administration of the federally owned lands involved.

Noel Topol Promoted

Noel. S. Topol, son of Mr. and Mrs. Sidney H. Topol of 186 North Lake Blvd., Tahoe City, Calif., has been promoted to sergeant in the U.S. Air Force.

Sergeant Topol, a materiel specialist, is a member of the Tactical Air Command at Holloman AFB, N.M.

The sergeant, a graduate of Robert Louis Stevenson High School in Pebble Beach, Calif., attended California Western University and the University of Nevada.

Brighten Pans

Cooking acid foods like tomatoes and apples in an aluminum pan gives the pan a bright inside surface. The outside of the pan can be brightened by using a soap-filled steel wool pad.

LAKE ECHOES

By BETHEL

Ode to a Snowflake

Snowflake pure,
white and bright,
I just can't stand the sight,
Falling down, soft and thick,
Rotten snow, you make me sick!

Courtesy of
Dick Price,
KCBN

* * *

After listening to so many stories, we thought it appropiate to rerun Dave's Price–less Ode.

If this doesn't console the snowbound, read "Ordeal by Hunger" by George Stewart. His story of the Donner Party will cure anyone's selfpity and besides will give one a historical look at Donner Lake and the Sierra.

* * *

Gads! We have a mad cat. We hasten with apologies to Cho–Cho–San for saying she was a Siamese when she is a pedigreed Burmese – a much more rare breed of cats. However, a cat by any other name doesn't always catch mice just the same.

* * *

Ruby Weaver has returned to Incline Village after a visit to her sister and husband, Mr. and Mrs. D. B. Roberts at Costa Mesa and friends at Woodland Hills.

* * *

Patty and C. T. Miller were given a buffet supper followed by dancing Sunday night as a farewell gesture by hosts Karen and Keith Brown, Elaine and Dale Bannister, Esther and Frank Cano and Edwina and Ted Johnson. The California room of the Lake Tahoe Hotel was the setting for the affair. The Millers are moving back to Santa Cruz after living at Incline for the past four years. Children are Troy and Tracy.

The Millers were presented with a money tree by their friends. Attending were Lois and Jim McRice, Joan and Jack Stevens, Marj and Jim Mizer, Clarice and Charles Martinson, Katie and Mal Downey, Mary and Bob Johnston, Peggy and Don Gilfillan, Joan and Bill Riley, Claudia and Gary Casteel, Ruby Weaver, Ruth and Robert Norris, Sonja and Bill Hane, Bernie and Bob Jensen, Carla and Ben Pomeroy of Carnelian Bay, Joanne and Al Humphrey, Janice and Curtis Moore of Tahoe City, Helen and Al Klockman, and the hosts.

* * *

Happy birthday to James Carey of Incline Village who celebrated his natal day on January 29. Dinner at the Racquet Club with Martha and Harry Bernard of Crystal Bay observed the occasion.

* * *

Barbara Barnhill of Incline Village celebrated her birthday also on January 29 and also at Guy Michaels restaurant at the Racquet Club. Joining Barbara for the evening were her husband, Jack, Lee Cunningham, and Jim Stack.

* * *

Patty Miller of Incline Village was hostess to a baby shower on Wednesday for Karen Brown. Games, gifts and refreshments kept the guests busy for the afternoon.

Attending the shower were Ellen Fichtner, Rita Leon, Hazel McNamara, Minnie Thompson, Esther Cano, Vivian Kisiluk, Jeanne Davis, Betty Ulhorn, Jan Brocklesby, Joanne Humphrey, Fran Simpson, Jean Mercer, Peggy Gilfillan, Ruby Weaver, Mary Johnson, Mary Taylor, Pat Tidey, Shirley Rosamond, Mary Ann Brooks, Darlene Kison and the hostess and guest of honor.

* * *

Troy and Conrad Wainscoat of Kings Beach are looking forward to having their sons, John and Joe, return home this month after a year's duty in Saigon.

They are grandparents again – twice. Kendall and Gregory Wainscoat of Reno welcomed their first child, Kelley, on January 8.

Their daughter, and husband, Rebecca and Robert Wolf of Tahoe Valley had their fourth child on December 26, a son, Paul. They are the parents of Danny, 4, John, 3, Jennifer 2.

* * *

Peggy and Don Gilfillan of Incline are anticipating a visit from her brother, Tom Kiely and his fiance, Helen from Santa Monica. Tom and Helen have set their wedding for May at her home in Paris. Two ceremonies will be held – a state and a church wedding. They plan a two weeks tour of Europe before returning to California to make their home.

* * *

Isabelle and Al de Luque of Tahoe Vista advise that her daughter and family, Abbie and Frank Jeans and children, Debra and Rachel, are now located in Pennsylvania. Frank is associated in business with his father.

Son, Jack, has made a trip to Europe and Joel is still attending school in Boston.

* * *

Six feet of snow welcomed Earl Calicutt back to Crystal Bay after a two weeks business trip. In Los Angeles he was caught in the heavy rains which caused much damage to areas he visited. He renewed old friendships in the entertainment world and after concluding business returned to Tahoe via San Francisco and Sacramento. All in all, a stormy trip!

* * *

Dorothy Mercer stopped in Denver to visit with Em and Ralph Reggin, long time friends of the Mercers, before returning to Tahoe. She will also ski Vail and Aspen slopes.

Already home is David McClellan. Dorothy and David went to Winnipeg to enter the 500 mile snowmobile race. However, a blinding snowstorm started 125 in the race. Dorothy's machine broke down the first day after over 80 miles and David made only a hundred miles. The course took them over plowed terrain which was fields of ice. Only 25 left the second day and no report as yet on the outcome.

Both were considerably disappointed at the outcome of their efforts but plan on entering next year. This was Dave's second year in the race. All things considered, we are happy they are home safely and hope for better luck next year.

* * *

Rev. Al and Gaynelle Frye of Incline Village welcomed their first child, Gregory Taylor, Sunday January 26. He weighed 7 lbs 8 1/2 oz on arrival at Washoe Medical Center at Reno.

The Fryes have been Incline residents this past year where he is minister of the Presbyterian Church.

* * *

Karen and Keith Brown and children, Scott, 8 and Kelly, 7, of Incline spent a month at Calgary, Canada, where they attended a reunion of Keith's family. One brother, a captain in the RAF, Keith hadn't seen for eight years.

The Browns enjoyed a leisurely trip home through Banff, Vancouver, and down the coast of Washington, Oregon and California, back to Tahoe.

* * *

Alice Ann Ellison of the Bay area was a guest this past week of Martha and Harry Bernard at Crystal Bay. Alice and Martha both were in Pakistan at the Beral Hospital together.

* * *

Paul Wright of Crystal Bay has been hospitalized from burns suffered in a minor fire at Incline. Wife, Dorothy, is handling business while Paul is hospitalized.

* * *

In "News from the Past" we note that 30 years ago a petition was signed by area residents to absorb the Brockway shortcut into the state highway system and presented to the Colfax Assemblyman.

Wasn't it about three years ago that the Shortcut was finally accepted by the State and ribbon cutting ceremonies held by Supervisor Bill Briner?

* * *

Guy Michaels' has been named manager of the Chataux restaurant at Incline Village after his resignation at the Racquet Club. Guy returns to the Chataux February 12 – the same day they opened it four years ago.

The Chataux is indeed fortunate to have Guy and Gloria back along with their clientele. For many years they owned and operated The Christmas Tree, becoming widely known in the restaurant world. Gloria added to their fame with exotic pets – she now has Nimba, a lioness, and Sidney II, a jaguar.

The Michaels are parents of twins – Gayle and Guy – who attend Incline High as freshmen. Both enjoy skiing and are on the ski patrol.

Choir Boys History Dates Back To Maximilian's Time

Twenty–two freshly scrubbed boys, ranging in age from eight to fourteen, dressed in immaculate sailor suits, famed around the world as The Vienna Choir Boys, will appear in concert on Feb. 17 at 8 p.m. in the Pioneer Theater Auditorium in Reno.

Founded in 1498 by the Hapsburg Emperor Maximilian to provide music for the Austrian court's religious services, the Vienna Choir Boys has a long and distinguished history, numbering such music greats as Franz Schubert and Josef Haydn in its membership.

It took America's Walt Disney, however, to make them a household word which he did when he told the story of a typical Choir Boy's life in his film "Almost Angels." They were also featured in "Cinerama," have appeared with Perry Como, Ed Sullivan and on Hollywood Palace and made a surprise appearance in a gala New Year's Eve production of "Die Fledermaus" at the Metropolitan Opera.

The concert to be presented here will be the traditional three–part program, the first part composed of religious selections, including sacred songs in Latin, some written in the Sixteenth and Seventeenth Centuries.

The second part of the program will be a complete switch in mood as the boys change from their traditional sailor suits to high – heeled shoes, dresses and wigs and perform a rollicking Viennese operetta with an enormously complicated plot and a happy ending.

The final portion of the program draws on the priceless collection of folk music collected by the Choir School through the centuries. Italian, German, French and English folk songs will be heard. The program traditionally closes with a collection of Viennese waltzes.

Tickets are on sale at Pik & Letty's Park Lane Centre, Reno.

VIENNA CHOIR BOY

Placer's Planning Director Justin Barber Resigns Post

Placer County's planning director, Justin F. Barber, Jr., has announced his resignation effective February 28, and stated that he was accepting the position of planning director with the engineering and planning firm of Murray and McCormick starting March 1, 1969.

In offering his resignation to the board of supervisors, Barber cited some of the planning work which the board and commission have accomplished over the past few years during Barber's term as director. Among the most important of these, Barber said, was the Placer County General Plan adopted last year together with the county's first comprehensive zoning ordinance, adopted in 1963.

Since the 1963 date, Barber said, some 400 square miles or about one–fourth of the county has been precisely zoned, chiefly the Auburn and Lake Tahoe areas. He indicated that the commission is currently holding hearings on another 250 square miles of zoning in the western agricultural lands and High Sierra timber croplands.

Numerous area plans have also been adopted thanks to citizen cooperation in Auburn, Lincoln, Roseville, Colfax, Ophir, Newcastle, Bowman and Foresthill, he said.

Barber, who also served on the Tahoe Regional Planning Commission, assisted in the preparation and adoption of the first regional plan for Lake Tahoe. This plan, he said, served as a guide for Placer County's zoning studies there.

Murray and McCormick, Barber said, will put him to work immediately on several key projects including Gentry Glen, a recreational subdivision in Martis Valley near Lake Tahoe. The Murray and McCormick firm, with offices located in Sacramento, San Leandro, Tahoe City, Novato, and Bellvue, Washington, is currently working on a sports car racing complex at Sears Point and Bahia, a residential subdivision with water–front lots and a large marina on Richardson Bay. The firm has provided engineering and planning for Hamilton City near San Jose and the Sprintown subdivision in Alameda County, as well as several multiple and single family residential subdivisions in and around the cities of Sacramento and Seattle.

HEADLINER – Comedian George Kirby makes a special appearance this weekend only, February 7 and 8, in the Headliner Room at Harrah's Club in Reno. Featured with him are the Serendiptiy Singers.

Arnett Named Director Of State Fish & Game

Governor Ronald Reagan has appointed G. Raymond Arnett of Bakersfield, a long–time leader in the field of wildlife conservation, director of the California Department of Fish and Game.

Arnett, 44, has served as a director of the National Wildlife Federation, Region 12 (California – Nevada – Hawaii), for the past five years and has been a director at–large for the California Wildlife Federation since 1963.

He replaces Walter T. Shannon of Sacramento who is retiring after 32 1/2 years with the DFG, including the past nine years as Director. The appointment requires Senate confirmation and pays $23,625 annually.

A 1947 graduate of the University of Southern California, Arnett, a Republican, has also served as a director of the Kern County Wildlife Federation for the past seven years and has been a member of the governing board of the Kern County Fish and Game Protective Association for more than a decade.

He is a member of Californians for Conservation and Recreation and has served on the Advisory Board of Ducks Unlimited of Kern County for 10 years.

Arnett's appointment was praised by Al Schiavon of Fresno, president of the California Wildlife Federation.

"Ray Arnett brings with him to Sacramento a working knowledge of sportsmen's problems and a dedication to the cause of conservation," Schiavon said.

"We look forward enthusiastically to working with him in his new post," he said.

Schiavon said the relations between sportsmen and the oil industry have been greatly improved and strengthened since Arnett organized the oil industry's wildlife coordinating committee a decade ago when he was with Richfield Oil.

Active in community affairs, Arnett recently was appointed to the Bakersfield Police Commission and is a former director and president of the Greater Bakersfield Chamber of Commerce.

He has been a director of the Kern County Taxpayers' Association for the past 10 years and is a former director of the Children's Home Society of California.

He is a former director and organization extension chairman of the Kern County Council of the Boy Scouts of America and currently serves as a member of the Board of Governors of Junior Achievement of Bakersfield.

Arnett is also a past director of the Kern County Cancer Society, the Kern County Tax Coordinating Council, and the Trade Club of Greater Bakersfield.

He is a former director and special gifts chairman of the Kern County Y.M.C.A.

Arnett, who served as an officer in the U.S. Marine Corps during World War II and the Korean Conflict, is employed in the public affairs department of the Atlantic–Richfield Company, Bakersfield.

He and his wife, Virginia, have four children. They live at 2310 Bank Street, Bakersfield.

If you help a man who's in trouble, that man will never NEVER! Especially the next time he's in trouble.

Nevada Trophy Fish Program Sets Records

CARSON CITY – Fish & Game spokesman recently announced that the 1968 Trophy Fish Program has established what will be considered as the state's largest fish in several species categories.

"Through the cooperation of anglers we now have confirmed weights and lengths of Nevada game fish that will stand as records at least during 1968," says Tom Trelease, Chief of Fisheries, for the State Fish and Game Commission.

The Trophy Fish Program was initiated in 1968, and will continue on an annual basis with awards made annually to the angler reporting the largest fish in each of 25 game fish categories.

The program is not a contest, but merely a project whereby we can get some idea of the largest fish taken to establish state records, added Trelease. Minimum weights are listed for each species and all fish of the minimum weight and over are eligible.

Certificates are awarded all entrants and the angler taking the largest fish in each category is presented with a plaque appropriately engraved.

The 1968 record fish, waters where taken, and angler, are as follows:

Bud Tourtellotte, Las Vegas, Largemouth Bass – 9 lbs. 13 oz. – 24–1/2", Lake Mead.

Herman J. Heffnieder, Reno, White Bass – 2 lbs. 8 oz. – 15", Lahontan Reservoir.

Charles C. Grant, Carson City, White Crappie – 2 lbs. 8 oz. – 16–1/2", Lahontan Reservoir.

Ada Totten, Las Vegas, Channel Catfish – 21 lbs. 8 oz. – 34", Lake Mohave.

Frank Mongolo, Sparks, Cutthroat Trout – 13 lbs. 8 oz. – 31", Pyramid Lake.

Les Montevaldo, Carson City, Mackinaw Trout – 20 lbs. 3 oz. – 38", Lake Tahoe.

Allen R. Richardson, Reno, Brook Trout – 3 lbs. 4 oz. – 18", Ruby Marsh.

Bruce Ingram Las Vegas, Rainbow Trout – 13 lbs. 4 oz. – 29–3/4", Lake Mohave.

Greg Melton, Coleville, Calif., Brown Trout – 12 lbs. – 29", Topaz Lake.

Trophy Fish Entry Forms are available at all Fish & Game offices and from all license agencies throughout the state.

Nevada County Supervisors Intend To Improve Image

Department heads were urged to help "improve the total county government image" by Board Chairman William Thomas at an informal gathering Tuesday.

Thomas told 20 of the people who run Nevada county's offices that they can do much through public relations and public information to present a positive picture of what the county government is doing. The chairman said his call to improve the county's total image is "one of the most important jobs for everybody in this room at this time."

To accomplish this, he said "there has to be a teamwork sort of approach instead of us playing it alone. When talking to the community, try to take the opportunity to build the whole county image."

Supervisor Dean Lawrence added that "it is not good enough to do a good job. It doesn't get over by osmosis."

Elton (Bub) Tobiassen, president of the Nevada County department Heads Association, explained that at the group's meetings a different department head presents a program about his activities each time to give the others some understanding of the various county functions.

Thomas conducted Tuesday's meeting in the conference room of the annex prior to the regular Tuesday board of supervisors session.

Origianally, he had asked all five supervisors to be present but explained to the group that this was later limited to himself and the vice chairman, Mrs. Lawrence, because of a conflict with California's open meeting law, the Brown Act.

Thomas said the county counsels office advised him that having the entire board meet with department heads outside the regular meeting would be a violation. The Brown Act limits closed, executive sessions to hiring or firing of personnel. This meeting was not closed but was not announced to the public. A Union reporter did attend.

Thus, Thomas and Mrs. Lawrence met as a committee of the board with the department heads.

During the board's meeting later, Thomas suggested a regular schedule be established whereby the board would meet informally with department heads in conjunction with the regular weekly meeting.

Supervisor Lou Hartman cautioned that "it should be voted by the board so all members could be there and the public too."

Thomas agreed that such sessions should "be part of the public meeting because if they're not, the whole board can't attend."

Pyramid Lake Anglers Having A Banner Year

CARSON CITY – Anglers are experiencing some of the finest trout fishing ever produced in the State of Nevada at Pyramid Lake with cutthroat trout ranging from 17" "keepers" to the present pace setter of 15 1/2 lbs.

Fish and Game agents indicated recently that during the month of November, 1968, anglers removed 12 1/2 tons of cutthroat trout from the desert lake located 30 miles north of Reno–Sparks.

The cutthroat trout appears predominately in the catch, however, the rainbow–cutthroat cross known as cutbow, are frequently being picked up by anglers, with the average weight of both species running near 3 1/2 lbs. Minimum size for "keepers" is 17" and the limit is 3 trout or salmon daily and in possession.

The Pyramid Lake fishery is strictly a put and take program since there is no natural cutthroat reproduction in the lake or the incoming Truckee River.

Generally, fish being taken now are those which were planted during the spring of 1966 when 212,000 reared cutthroat were stocked. There are some fish being taken in the 8 to 12 lb. category that are the result of plantings prior to 1966.

Pyramid Lake anglers will experience a decline in fishing during the next two years due largely to fewer fish being stocked in 1967 and 1968.

This according to Fish and Game officials is the result of a lesser number of cutthroat eggs available from wild sources of brood stock. During the spring of 1967, 188,000 reared fish were planted in Pyramid and 81,000 in the spring of 1968.

The cutthroat must be held at rearing installations for 2 years until they reach a plantable size whereas rainbow and brown trout reach planter size in one year.

More than 200,000 reared cutthroat are scheduled for planting during the spring of this year concluded Fish & Game spokesman.

Registrations Are Open For Big Cow Palace Horse Show

Premium books are now available for young equestrians wishing to enter the 23rd annual Grand National Junior Horse Show, set for March 28–30 at the Cow Palace, according to Joseph G. Moore, chairman of the horse show committee.

"Because of the growing number of entries we have been receiving during past years, we have developed a new format for this 1969 show," said Moore. "By breaking down our age group limits, we have expanded our horse show from 29 to 46 classes, allowing us room for more entries."

"An all–western division will be judged Friday, March 28, and hunter, jumper and saddle horse divisions will be judged Saturday and Sunday, March 29–30," he added.

The Grand National Junior Livestock Exposition will begin Saturday and continue through Wednesday, April 2.

Contestants may send for horse show entry forms at this time, addressing their applications to: Grand National Junior Horse Show, Cow Palace, P. O. Box 34206, San Francisco 94134.

Entries close Wednesday, March 12. No post entries will be taken.

Boat Injury Figures Out

The State Department of Harbors and Watercraft today released boating accident statistics on California waters for the year 1968. Their figures show 580 accidents reported, with 92 deaths, 185 injuries, and $1,007,089 in property damage, compared with the 1967 tally of 572 accidents reported, 93 deaths, 172 injuries, and $1,028,226 in property damage.

Of the 803 vessels involved in the accidents, 120 were lost or damaged beyond repair. 164 mishaps occurred on the ocean, 240 in coastal inlets, bays or harbors, and 176 on lakes, reservoirs or other inland waters of the state. Collisions were the most frequently occurring type of accident reported, with 227 vessels ramming other vessels, and 69 vessels colliding with other objects in the water. There were 65 fires or explosions. Sixty–two boats capsized, 57 ran aground, and 43 flooded or sank.

Robert C. Walker, the Department's Director, pointed out that most of the accidents appeared to have more than one cause. He said the reports revealed that operator negligence was present in most of the accidents, and that although a report might cite faulty equipment as the culprit, the real cause might well be failure to maintain the vessel or its equipment in seaworthy condition.

Walker said the statistics point up the importance of the free boating classes offered by the U. S. Coast Guard Auxiliary, United States Power Squadrons, the Red Cross, and other safety–minded organizations. The Department furnishes information on such classes on request. The place to write is: Department of Harbors and Watercraft, 1416 Ninth Street, Room 1336, Sacramento, California 95814. Copies of statistical summaries are also available for the asking.

Fish And Game Arrests Total 16,073 For Year

California Fish and Game wardens made 16,073 arrests for violations of fish and game laws and regulations during 1968, the Department of Fish and Game reported today.

Violators paid a total of $466,552 in fines and served a total of 1,672 days in jail for the offenses. There were 16,238 total violations reported during the year. The number of violations is higher than the number of arrests because some violators were cited for more than one offense, the DFG said.

Angling without a license remained the number one violation with 5,984 arrests, followed by possession of a loaded gun in an automobile, 1,710. Angling with more than one line resulted in 1,274 arrests and clam and shellfish violations 1,081.

Other violations included: deer 621; trout 605; waterfowl 651; inland fish other than trout 550; doves 444; and litter 443; pheasant 406; no inland fishing stamp 333; public shooting area trespass 262; hunting without a license 232; miscellaneous 1,115.

The number of arrests was higher than the 15,662 made by fish and game wardens in 1967, but the amount of fines and jail days served both were down.

Court revoked 17 hunting licenses and suspended 20, while nine angling licenses were revoked and 12 suspended.

Fish, Game Calendar

Feb. 14, Fish and Game Commission meeting in San Diego; Feb. 15; Open ocean salmon fishing season south of Tomales Point; Feb. 23, Close black brant hunting season; Feb. 28, Close fall and winter salmon and steelhead season; March 1, Open trout season at Whiskeytown Lake; March 7, Fish and Game Commission meeting in Crescent city; March 16, Open sportfishing season for abalone; March 19, Close sportfishing season for lobsters; March 29, Open Almanor, Donner, and Jenkenson Lake trout seasons.

Byars Corp. Is Fined For Killing Bear Creek Trout

The H. M. Byars Corp. of Reno was fined $500, of which $250 was suspended, and ordered to restore 40 pounds of fingerling trout in Bear Creek in Alpine Meadows, after pleading guilty to a charge of violating Section 115.69 of the fish and game code.

Representives of the corporation appeared before Judge Robert Fugazi in the Tahoe Judicial District Court Jan. 15.

Game Warden Terry Hickman had brought charges against Byars last July after the firm was accused of allowing chlorine to flow into Bear Creek, killing at least 140 trout.

An analysis of the water was made by Phil Baker, fish biologist at Tahoe City, who testified regarding the chlorine content of the stream.

The case was delayed many times but was finally cleared up in court last month.

Joe Val, Val Aires Open At Nevada Lodge

Guitarist Joe Val and the Val–Aires trio open Tuesday night for a three week engagement at North Lake Tahoe's Nevada Lodge. The Val–Aires return to the Lodge for the first time since their smash engagement last October.

Headed by guitarist virtuoso Joe Val, the group offers Nevada Lodge audiences a broad repertoire of instrumentals and vocals ranging from contemporary hits and folk songs to standards of the past. Their unique arrangements and style of delivery have marked them as "something to hear"

Joe Val and the Val–Aires are a spirtied trio, with Joe Val's wife, Donna, accompanying him on the accordion, plus a talented drummer to round out the combo. Their current engagement runs through March 2.

Nevada Lodge is North Lake Tahoe's largest year–round resort hotel casino. Entertainment buffs recognize the Lodge's Topaz Room as the fun place to go for top flight entertainment at beautiful North Lake Tahoe.

VAL –AIRES – Guitarist Joe Val and the Val–Aires Trio open Tuesday night for a three week engagement at the Nevada Lodge, North Lake Tahoe's largest year–round resort hotel casino. The trio will perform nightly, except Monday, in the Lodge's famous Topaz Room.

Tahoe Truckee Cagers Win Two Large Ones, Play Colusa And South Tahoe This Weekend

The Tahoe Truckee High School Wolverines, who had managed only one practice session in the previous two weeks because of weather conditions, didn't seem to be bothered by their layoff over the weekend as they picked up two more important basketball victories.

The pair of wins ran their season record to 11 wins against only four losses. The Wolverines stand 2 and 2 in Pioneer League play and are in third place in the standings.

Friday night the Tahoe Truckee cagers won a resounding league victory by downing the Colfax Falcons, 47–37. Coach Joe de Arrieta described the game as a great team effort in what was a "must" victory to stay in contention in league play.

Bill Kinzie, 6–4 center, played his finest game of the year for the Wolverines, according to de Arrieta. He led the team in scoring with 17 points and picked off 14 big rebounds for the night.

Brian Smart also turned in an outstanding individual performance. Smart was the game's top rebounder with 18, and he got 14 points to his credit in the scoring column.

De Arrieta credited the team's rebounding and top defensive play for the margin of victory. The Wolverines held Steve Houghton, the big 6–7 Colfax center with a 20–plus league point average, to a mere 5 points for the night.

Saturday night, the local squad traveled to South Lake Tahoe and came home on the long end of a 57–43 score. Again it was another good team effort, according to de Arrieta, with Doug Lindsey leading the attack with his fine outside shooting. Doug finished the night with 15 points.

Bill Kinzie and Chris Wiser did a good job on the backboards and got 10 points each. George Franceschinni turned in a fine game and added nine points to his team's score.

A bright spot also in Saturday's victory, de Arrieta said, was the fine performance turned in by Gary Price in the fourth period of play.

This Friday, the Wolverines go to Sierra College for a league contest with Colusa, then on Saturday they return home for action against the South Tahoe Vikings.

Other remaining games include one against Del Oro on February 14, Wheatland on February 21, and against Colfax on February 28.

Record Purse Authorized For 1969 Reno Air Races

A record purse of $77,500 has been authorized for the five competitive classifications scheduled for the 1969 National Championship Air Races this fall, Sept. 19–21, at Reno/Stead Airport nine miles north of Reno.

Reno attorney Stanley Brown, re–elected to his third term as chairman of the races, said the division of the prize money would provide: $35,000 for the unlimited pylon event; $15,000 for the transcontinental race; $15,000 for the Formula 1 (midget) class; $7,500 for sport biplanes; $5,000 for the AT–6 category.

The total purse for the 1969 edition of the races represents a $15,500 increase over last year. The biggest increase for a single classification was approved for the unlimited pylon race, raised from $20,000 last year to $35,000.

Brown, in explaining the $15,000 hike for the unlimited aircraft, said, "The board of trustees generally agreed that unlimited pylon racing was the outstanding event of the races last year and that we must continue to support the participants. The cost of racing this particular type of aircraft is also higher than for other classifications because of the fact that Reno is the only location where they are currently racing."

Jerry Duty, a retired U.S. Air Force colonel, will serve for the second consecutive year as director of the air races.

Propose New Lake Parkland

The possibility that a part of the Nevada side of Lake Tahoe might be preserved for public use as a national lakeshore recreation area was raised Friday by Sen. Alan Bible, D–Nev.

The senator said he would introduce a bill calling for study of the proposal of Nevada Gov. Paul Laxalt, a Republican, and the Nevada State Legislature agreed.

Bible, chairman of the Senate Parks and Recreation Subcommittee, announced the proposal in a speech prepared for delivery at the annual meeting of the California–Nevada section of the National Wildlife Society.

The feasibility study would be carried out by the U. S. Bureau of Outdoor Recreation.

Bible said the study would not exclude the possibility that some type of state development "might be preferable" to a National Lakeshore.

"But if the study clearly indicates the public interest would be best served by adding desirable portions of the Lake Tahoe area to the National Park System, then I believe we would be obligated to proceed accordingly," he said.

"The natural, undeveloped shoreline beauty of this majestic mountain lake grows smaller each day. And since time is a critical factor, I believe the public interest should take precedence over all other factors."

Udall Accepts Water Plans

The acceptance by Secretary of the Interior Stewart L. Udall of California's Water Quality Control Policies for interstate and coastal waters, including the waters of the San Francisco Bay and Sacramento – San Joaquin Delta, clearly points to the fact that the State is on the right track in enhancing and preserving its waters, Kerry W. Mulligan, Chairman of the State Water Resources Control Board declared recently.

"There has been some apparent confusion over the water quality objectives established for the western Delta which have definite water rights implications" Mulligan said, "and Udall's decision should help to end that confusion."

"The Board at its regular meeting of January 9 called for water rights hearings on the Delta for July 22, 1969, the problem there being a classic example of the interrelationship of water quantity, as expressed by water rights, to water quality."

Mulligan noted that Udall's approval of the water quality control policy for the Delta was based on the Supplemental Water Quality Control Policy adopted by the State Board last October and the State Board's recognition that further consideration of these standards is necessary. The supplemental policy for the Delta augmented and strengthened previous objectives adopted in 1967 and submitted to the Secretary of the Interior in accordance with the Federal Water Pollution Control Act.

Mulligan stated that Governor Reagan had received Udall's letter approving, with recommended action, California's water quality control policies. Udall wrote the Governor that "The California standards are good ones, well documented, and with few exceptions, fully adequate to protect the quality and uses of your interstate waters."

"Particularly," Udall wrote, "I am gratified by the adoption of a policy to protect high quality waters as part of your State's enforceable standards. In my opinion, this policy, coupled with the high standards established for Lake Tahoe and certain other waters of your State, will prove to be of great value in conserving the present high quality of these waters for future generations."

Mulligan said that the State Board has been considering many of the recommendations contained in Udall's letter. Among these are the upgrading of the existing water quality objectives to make the propagation and sustenance of marine life a beneficial use of waters for the Los Angeles Tidal Prism and the Long Beach Inner Harbor and the establishment of thermal objectives for all State waters and bacteriological objectives for the Klamath and Truckee Rivers. Public hearings will be held in Los Angeles January 22 on the Los Angeles – Long Beach water quality control policy and on March 6 in Sacramento on thermal and bacteriological objectives.

Donaldson's Stays On Top In Hoop Play

In games played Thursday night in the Adult Basketball program, Donaldson's remained undefeated by clobbering the Gas Jockeys 81–42. The Gas Jockeys, missing several key players, were never in the game and were at the mercy of a tenacious man–to–man defense and quick, fast break applied by Donaldsons. Andy Antonnucci with 19 and Floyd Cooper with 12, led the scoring for Donaldsons.

The second game was much closer and was not decided until Rich Clavey came in late in the fourth quarter, scoring 6 points to lead the Tradewinds over Mariers Marauders 45–41. Paced by Ron Baker's 18 points and Walt McCurdy with 15, the Tradewind's outside shooting was devestating. The losers were led by McLain with 13, and Dale Freeland with 11.

Nevada Solons Join In Bi-State Compact Move

WASHINGTON – Nevada Sens. Alan Bible and Howard Cannon and Representative Walter Baring have joined with California colleagues in re–introducing legislation approving a bi–state compact for water pollution control and land development in the Lake Tahoe Basin.

"Approval of the compact has been assigned the highest priority by Nevada's delegation in the 91st Congress," Bible said. "There is a definite sense of urgency in this legislation."

The compact, agreed to by the legislatures of both Nevada and California, requires congressional ratification to become law. It would establish an area–wide planning agency with power to adopt and enforce a regional plan of resource conservation and orderly development at Lake Tahoe.

The agency is expected to move quickly to implement strict water pollution control programs while adopting equally rigid regulations aimed at guaranteeing carefull development in the scenic five–county area.

Bible and Cannon, joined by Sens. George Murphy and Alan Cranston of California, teamed with Baring and California Representative Harold T. (Bizz) Johnson in re–introducing the legislation.

Nevada and California delegations first sought congressional approval of the compact last year, immediately after it was agreed upon by the two state legislatures. However, there was insufficient time for it to be acted upon in the 90th Congress.

"This bill represents the last step in a long battle to insure the protection of a national heirloom," Bible declared. "We want the earliest action so work can begin immediately to set up a bi–state agency."

In other action, Bible noted funds totaling $2.6 million have been scheduled to complete construction of Stampede Dam near Reno next fiscal year.

Bible, a member of the Senate Appropriations Committee, said the Bureau of Reclamation had included the financing in its budget request to Congress.

Stampede Dam, a major unit in the Washoe Reclamation Project, is situated on the Little Truckee River. More than $4 million in construction is currently under way.

Bible, who sponsored the Washoe Project authorizing in 1956, said the Reclamation request also covered preconstruction work on Marble Bluff Dam, Pyramid Lake Fishway and recreation facilities as part of the Washoe Project.

Work on Stillwater Wildlife Area improvements in Churchill County and on the Stampede wildlife mitigation program also come under the appropriation request, he said.

Bible also reported the Army Corps of Engineers is asking Congress for $891,000 flood control and related work in Nevada.

The request includes $520,000 to continue work on the important Martis Creek Flood Control Project, Bible said.

Bible gave this breakdown of other funds sought for Nevada:

Comprehensive investigations of the Great Basin region, $213,000;

Operation and maintenance of Pine and Mathews Canyons reservoirs, $25,000;

Lower Colorado River basin studies, $80,000;

Truckee Meadows flood control studies, $53,000.

Administrators Plan Session

An orientation and planning session for school administrators concerned with future changes in social sciences education is scheduled for February 19 in the Placer County Office of Education.

Reservations should be made as soon as possible with Dr. Morris L. Krear, social sciences educational consultant.

The meeting, beginning at 2 p.m., will include two sessions: a discussion of major changes ahead for social sciences education in Placer County, and a talk on new education material.

Cheryl Soames Wed To Peter Terry Hickman

Cheryl Soames of Incline Village became the bride of Peter Terry Hickman III last Saturday during double ring rites held at Christ the King Lutheran Church in Tahoe City. Rev. William Dowling officiated.

The bride is the daughter of Mr. and Mrs. Wood Soames of Incline Village. Her bridegroom is the son of Terry Hickman Jr. of Donner Lake and Mrs. William Greene of San Clemente, Calif.

Given in marriage by her father, the bride was gowned in a white street length empire dress with lace overdress. It was handmade by her mother.

Maid of honor was the bride's close friend, Noel Close of Oakland, Calif. Best man for the bridegroom was Ronald Haneline of Hermosa Beach, Calif.

The newlyweds greeted some 50 guests during a reception held at the California Alumni Center in Tahoe City. They left for a honeymoon at an undisclosed destination and expect to make their home in the Bay Area.

The new Mrs. Hickman attended Bay Area schools and was graduated from Wooster High School in Reno. She attended the University of Nevada. Her bridegroom is a graduate of Southern California schools. He is studying to become an architect.

Among special guests were the bridegroom's parents and spouses, Mr. and Mrs. Terry Hickman and Dr. and Mrs. William Greene; his grandfather, Charles Shaw of Los Angeles and his grandmother, Mrs. Amy Nepham of San Clemente. Also in Tahoe City for the ceremony were the bride's grandparents, Mr. and Mrs. Jack Lentz of Auburn, Calif. and several aunts, uncles and cousins.

Tahoe Area Boy Scouts Achieve Growth Of 25%

The Tahoe Area Council, Boy Scouts of America, serving Placer, Nevada and Western Sierra Counties has achieved a 25 per cent growth in its boy membership for the year 1968, according to Charles F. Parsons, council president.

"Available figures subject to confirmation later this month indicate our membership at the end of 1968 reached an all–time high of 2,722 boys" said Parsons, "which indicates an increased interest in responsible citizens for the scouting program in our two and a half county area."

The growth of the council's membership reflected a 31.9 per cent in Cub Scouts, a 17.4 per cent increase in Boy Scouts and a 32.2 per cent increase in Exploring. The Golden Triangle District with its communities of Lincoln, Roseville, Rocklin, Loomis, Eureka, Penryn and Newcastle experienced the largest growth with a 37.1 per cent gain in total membership. The Ponderosa District with the communities of Auburn, Meadow Vista, Colfax, Grass Valley, Nevada City, Downieville, Truckee and Tahoe City produced a gain of 16.1 per cent.

"The council's first job," said Parsons, "is to extend the program of scouting to all boys. The dedication of our seven hundred adult volunteers has made it possible for over 500 new boys to have the opportunity to be Cubs, Scouts and Explorers".

"With the information now at hand, we are quite confident that the council leads all the other 52 councils in our five–western state Region Twelve. We will without a doubt be among the leaders in the nation."

The Tahoe Area Council, with offices in Auburn, is a participating agency of the Western Placer area of the United Crusade.

Indians Seek To Block Bi-State Pact

Pyramid Lake Paiute Indians said they will ask the legislature to reject a California–Nevada Interstate Compact allocating Sierra water between the two states because of insufficient guarantees for the large desert lake.

The tribal counsel ordered its lawyer to appeal denial of a petition to intervene in a 43–year–old suit in federal court to litigate the waters of the Carson River as well as file a separate action in U.S. District Court seeking to assure Indians of more water from the Truckee River.

Indians object as not enough to a compact provision giving them the first priority on the Truckee for 30,000 acre feet of water a year. This is included in a 1944 Truckee River Agreement approved by federal court.

"If the California – Nevada Water Compact becomes law, Pyramid Lake could disappear at the rate of three feet per year," said James Vidovich, chairman of the tribal council. Evaporation takes about four feet off the surface of the lake annually.

"If the lake is allowed to dry up, the people of Nevada will lose a recreation asset worth millions of dollars," Vidovich protested. "It is high time the voters of northern Nevada wake up to the fact that Pyramid Lake is about to be destroyed."

Budget Includes Indian Bureau

WASHINGTON – The Bureau of Indian Affairs will receive $41,604 for operations in the Second Congressional District if the budget pending before Congress is approved unchanged. Congressman Harold T. (Bizz) Johnson said the funds would be almost evenly divided between education and welfare services and resources management.

Johnson has been reassigned to the House of Representatives' Committees on Public Works and Interior and Insular Affairs. Although the assignments were anticipated, formal action did not come until this week.

Talk Features Tahoe Questions

Problems of water distribution and effluent disposal in the Tahoe City area will be the discussion subject at a meeting of the Sacramento–Tahoe chapter of the Society of American Foresters Feb. 7.

The dinner meeting will be in the Carousel Restaurant on Arden Way in Sacramento. A social hour is scheduled for 6:30 p.m., with dinner to follow at 7:30 o'clock.

The speaker will be Randolph DeWante, partner in the DeWante & Stowell Engineers firm.

Sunnyside Assessments Under Study

An originally proposed assessment spread was adopted by directors of the Tahoe City Public Utility District last week for a 2,100–acre sewer assessment district at Sunnyside.

The spread had been referred back to engineers to determine if revisions on specially zoned lake front properties would be more equitable.

TCPUD Engineer Randolph Dewante and attorneys for the district, after studying the problem during the last two weeks, recommended that no revisions be made. The board voted 3–1 to adopt the original spread with Stefan Korich voting no.

Science Industries Feasible For Nevada

By PROF. WENDEN A. MORDY

Thousands of communities are actively courting science-based industries. Companies such as research laboratories, electronics manufacturers, pharmaceutical suppliers and countless others are considered plums.

They do not cause pollution or other environmental problems. They are usually housed in attractive modern buildings, often in a research or industrial parks, which improve the appearance of a neighborhood.

The relatively high income of their labor force gives a boost to the local economy. The employes are mostly highly skilled, well-educated people; a high percentage of them are professionals who contribute to the progress and stability of the community, and don't create problems.

Science – based industries bring outside money into the community, particularly from the federal government, which is one of their most important customers.

Therefore, such industries have become a status symbol for a community. Since they are so sought after, their location in a particular community is evidence that it is progressive and attractive, and other industries in turn locate there.

But what enables a community to compete for these science-based industries? A recently completed survey by "Industrial Research" provides some answers.

The most important factor in the selection of a site is proximity to universities.

Availability of technical manpower, and proximity to corporate headquarters were considered next most important, overall.

However, there was a lot of variation between the responses of different groups. For example, proximity to universities was considered four times more important by scientists and engineers and research park occupants than by corporation presidents and research directors. Exactly the reverse was true on the question of proximity to corporate headquarters.

All four groups agreed that technical manpower was of major importance.

Surprisingly enough, cost of living, tax rates and labor costs did not rank high with any of the four groups questioned. And even climate was far down the list.

Among technical services desired by research directors, computing facilities were considered most important.

Proximity of other research activities was ranked high as an attraction by scientists and engineers and research directors.

When the questions were rephrased to emphasize environmental factors, above average schools were considered most important by all four groups.

This study should provide some interesting and helpful facts for all of us who want to help Nevada attract more industry in order to give a boost to our economy and to broaden our tax base.

Dr. Effie Mona Mack

A noted Nevada historian, writer and teacher, Dr. Effie Mona Mack, died Saturday in Reno at the age of 80.

She was the author in six historical works, was a Nevada State Journal columnist for some years, wrote numerous magazine articles, once edited the Virginia City Times, taught in Nevada schools from 1909 to 1954, and was a public lecturer.

During her 69 years in the state, Dr. Mack was affiliated with numerous organizations. She was awarded the first honorary doctor of literature degree by the University of Nevada in 1948.

The social science building constructed on the University of Nevada Reno campus in 1966 was named for her.

Dr. Mack joined the faculty at Reno High School in 1914 to teach history and political science and remained until her retirement in 1954.

Patrol Post May Be Cut

CARSON CITY – If a proposed bill introduced last week by the Senate Transportation Committee is passed, the position of superintendent of the Nevada Highway Patrol may be eliminated.

The measure permits the director of the Motor Vehicle Department to consolidate the patrol under another division. The chief of that division would be ex-officio head of the patrol.

Former patrol superintendent, Don Brown, quit when his job was downgraded and Nevada Motor Vehicle Division reorganized so he had another boss.

At the time, James Bailey, director of the Motor Vehicle Department, said the head of the newly-reorganized division might also act as highway patrol chief.

GOP Women To Install Officers

Mrs. Doramae Jakobson will be installed as president of the Republican Women's Club of Incline Village and Crystal Bay this Friday, February 7, 7:30 p.m., at the Crystal Bay Club.

Installing officer will be Mrs. Hazel Gardella, president of the Nevada GOP Women's Club. Guests for the occasion include Lt. Gov. and Mrs. Ed Fike, Sen. and Mrs. Len Harris, Assemblyman and Mrs. Howard McKissick, Assemblywoman Mary Frazzini and Assemblyman Bart Schouweiler. The latlet is scheduled to be guest speaker.

Other officers to be installed are Mrs. Lois Bub, vice president; Mrs. Ellen Fichtner, treasurer; Mrs. Betty Facciolla, corresponding secretary; and Mrs. Patricia Desmond, recording secretary.

Womens Chuch Group To Meet

The women's association of the Presbyterian Church at Incline Village will hold a luncheon and card party at the Chataux on Tuesday, February 11, at noon.

Tickets purchased for a previous meeting, cancelled because of heavy snow, will be honored at the Tuesday gathering. Tickets may also be obtained at the door.

Gwen Wood, Delda Farris, Gay Nelle Frye and Joe Humphry are handling reservations.

Committees Discuss Park

CARSON CITY – A call for immediate action in obtaining land for a Nevada State Park and unanimous approval for the creation of an interim Nevada Tahoe Regional Planning Agency highlighted a joint hearing by the Assembly and Senate governmental affairs committees Tuesday.

Ray Knisley, former Nevada assemblyman, one-time owner of Camp Richardson and a supporter of the California-Nevada Bi-State Agency, recommended steps be taken immediatly to obtain a parcel of land already surrounded by a Nevada State Park at Lake Tahoe. The land in question is owned by Dominick Laxalt, father of Gov. Paul Laxalt.

Knisley told committee members "I think it's time we began to tie up islands within the properties we've already got through such actions as life estates."

Little People

The following births were recorded recently at Tahoe Forest Hospital:

Mr. and Mrs. Rikard P. Bergman of Tahoe City; a boy, Brian Kert, January 15.

Mr. and Mrs. Stanley A. Stancil of Tahoe City; a boy, Greg Alan, January 16.

Mr. and Mrs. Joseph E. Montano of Truckee; a girl, Josephine Ann, January 16.

Mr. and Mrs. John R. Clatterbuck of Truckee; a girl, Brandy Lea, January 19.

Mr. and Mrs. B. D. Weaver of Tahoe City; a girl, Kim Tracy, January 22.

Mr. and Mrs. Kenneth Dwane Mann of Hobart Mills; a boy; Kevin Daniel, January 22.

Rev. and Mrs. Robert J. Hutchison of Kings Beach; a girl, Christine Ann, January 22.

Mr. and Mrs. Clyde Watson, Jr. of Kings Beach; a girl, Tammy Jean, January 23.

NOTICE OF RECORDING OF ASSESSMENT

NOTICE IS HEREBY GIVEN that on the 31st day of January, 1969, there was recorded in the Office of the Director of Public Works of the County of Nevada, State of California, an Amended Engineer's Report, Assessment and Assessment Diagram to represent the cost of the improvements and acquisitions in Prosser Lakeview Estates Unit No. 3 Assessment District, County of Nevada, State of California, which proceedings were taken pursuant to the provisions of the Municipal Improvement Act of 1913:

NOTICE IS HEREBY GIVEN THAT:

All sums assessed in said Assessment are due and payable immediately and became due and payable on the 31st day of January, 1969.

Payment of said sums is to be made to:
County Treasurer
County of Nevada
County Courthouse
201 Church Street
Nevada City, Ca 95959
within thirty (30) days of the recording of said Assessment, which said date was the 31st day of January, 1969.

Serial bonds representing unpaid assessments, and bearing interest at the rate of seven per cent (7%) per annum, will be issued hereunder in the manner provided in the Improvement Act of 1911, the last installment of which bonds shall mature fourteen (14) years from the 2nd day of January next succeeding the next September 1st following their date.

Dated: January 31, 1969

LEGAL NOTICE

NORTH TAHOE FIRE PROTECTION DISTRICT
KING'S BEACH, CALIFORNIA
NOTICE TO CONTRACTORS

Notice is hereby given that the Board of Directors of North Tahoe Fire Protection District, King's Beach, California, will receive sealed bids for the construction of

CARNELIAN BAY FIRE STATION ADDITION

in accordance with the plans and specifications therefor, at the time and place set forth hereinafter.

Plans and specifications are now available at North Tahoe Fire Protection District, King's Beach Fire Station, King's Beach, California, and at the office of John Webster Brown, Civil & Structural Engineer, 642 N. Sierra Street, Reno, Nevada,

where they may be obtained upon a payment of $15.00 per set, $15.00 of which will be refunded upon the return of such sets in good condition within 10 days after bids are opened.

Sealed bids shall be sent or delivered to or filed with North Tahoe Fire Protection District at Kings Beach Fire Station, Kings Beach, Lake Tahoe, California, on or before the hour of 2:00 o'clock P.M. on the 5th day of March, 1969, at which time and place and on such date such bids will be opened and publicly read and declared. Bids may not be withdrawn for a period specified in the contract documents, or if no time be specified therein, then bids may not be withdrawn for a period of 28 days from and after the date set for bid opening, and the District reserves the right to reject any and all bids, or to waive any irregularity or informality in the bidding procedures, or in any bid.

Bidders are hereby notified that pursuant to Section 1770 et. seq. of the Labor Code of the State of California, the Board of Directors of the North Tahoe Fire Protection District has ascertained and established the general prevailing rate of per diem wages, as set forth in Exhibit "A," which is on file and available for inspection at the King's Beach Fire Station and at the office of John Webster Brown.

February 5 & 12, 1969. s/s

NOTICE TO BIDDERS

Notice is hereby given that sealed bids will be received by the Governing Board of the Tahoe Truckee Unified School District, Placer and Nevada Counties, California, at the office of the Superintendent, Truckee, California, on or before, and no later than Thursday, the 20th of February, 1969, at eight o'clock P. M., at which time and place bids will be opened for the purchase of one four-wheel drive, rubber tired, front end loader, Caterpillar 950 or equal, with 740 lbs counter weights mounted in rear, in accordance with specifications on file at the office of the District Superintendent of Schools. The Board of Trustees has for trade-in the following: one Caterpillar Model D8, S/N 2U5828, with spare motor and new spare tracks.

Bidder must quote cost of new loader less trade-in.

The Board of Trustees reserves the right to reject any or all bids, in part or in to, to waive any irregularities, and to be the sole judge of the suitability of the equipment offered.

Bidders are required to submit complete specifications for any and all items for which bids are offered and furnish a certified check in the amount of ten (10%) of the bid to guarantee faithful performance of contract.

By order of the Governing Board of the Tahoe Truckee Unified School District.

Chamber Pot-Shots:

By BETTY LAYTON

The two legislative bills which have concerned the chamber of commerce are going ahead and we report the following action to-date:

Monday holidays (Assembly Bill 66), is now before Assembly Governmental Administration Committee as of January 28.

(Senate Bill 30) is now before Senate Governmental administration Efficiency Committee as of January 7.

You may write to our representative, Assemblyman Gene Chappie, State Capitol, Sacramento, or to Senator Stephen Teale, State Capitol, Sacramento and express your views.

Business inventories (Assembly Bill 193) is before the Assembly Revenue and Taxation Committee as of January 28. This particular bill, which interests local businesses, was introduced by Assemblyman Veneman and calls for exemption increases for business inventories from 15 to 22 per cent commencing with lien date of 1970. "Increases subventions to local government from this fund, beginning with 1970-71 fiscal year. Reduces $90 million earmarked annually by statute for capital outlay purposes to $68 million commencing with 1970-71 fiscal year and provides that prepayments under Bank and Corporation Tax Law shall not be reduced for income years beginning on and after January 1, 1970 from 50 per cent to 25 per cent of estimated tax to 30 per cent and 20 per cent respectively."

Your local chamber of commerce needs your guidance as we prepare to study proposed federal legislation which relates to local businesses. The chamber will be sending out a questionnaire to all members asking for their indication on how important the proposed legislation is to them so that the legislative committee will investigate the items of greatest concern to the membership and then inform them of the pros and cons of the issues and pass along recommendations to our legislators.

More businesses are becoming aware of the chamber of commerce as it serves the community today. It is a business oriented organization dedicated to improving the business environment of our community and in this resort area, it means all the businesses serving the visitor and tourist.

In the November issue of the California Trucking Association official publication, they urge their members to actively participate in their local chambers of commerce. They state, "Should you have any doubt as to the wisdom of this support, call your chamber of commerce and learn of the financial investment and personal involvement of your nearest competitive industry. It is important that the story of the trucking industry be told from within the membership of the chambers of commerce by individuals in the trucking industry." This is sound counsel because it's usually the person not involved that is the greatest critic.

Chairman Gardner Mein reports that events are being scheduled for a summer program of activities at North Shore. Regional sailplane races will meet at Truckee Tahoe Airport for nine days, June 21-29, and 200 to 300 people are expected to attend.

Of particular interest to music lovers will be the Squaw Valley festival of Performing Arts, scheduled for a week the latter part of July. This will consist of several hundred musicians from the Oakland Symphony and the University of California Glee Club and will attract many tourists. The Summer Committee is particularly anxious to receive listings of all events in order to advertise and promote as many activities as possible.

Welcome new member: Attorney-at-law, Robert A. Fugazi of Agate Bay, with offices in the Highlands.

Occupancy Up At Hospital

Arnold Intorf, administrator of Tahoe Forest Hospital at Truckee, reports that hospital occupancy for 1969 was up 11 per cent over the previous year. "And emergency cases went up 40 per cent with 541 handled in 1969 as against 391 in 1968," said Intorf.

The administrator also noted that the hospital auxiliary's latest project of training members to help in the emergency center and assisting during busy weekends has "greatly enhanced our services.

"The gals have done a great job," he said. "Kate Miles, auxiliary president, even came in to work on her crutches last weekend." (Mrs. Miles sustained a broken leg a few weeks ago.)

The 42-bed hospital now has a staff of eight doctors in various fields of medicine and surgery with another due to arrive this spring.

West Shore Notes

By ELLEN ATTARDI

Harvey "Hobby" Hopkins, son of Harvey and Leah Hopkins of the Highlands, was flown to Letterman Hospital in San Francisco on Monday morning after being hospitalized in a hospital in Yokohama, Japan for two weeks. Hobby was injured in action in Vietnam last month and was first hospitalized in a field hospital in Vietnam.

The very best of wishes to Hobby from his many, many local friends.

A great number of messages from friends were received by the senior Hopkins after Hobby's injuries and one of the thoughtful ones was a telephone call from Mrs. James Stewart of Beverly Hills. Mrs. Stewart and her husband, Brigadier General James (Jimmy) Stewart of the Air Force Reserve the famed actor, periodically visits the field hospitals in Vietnam and calls the parents of the soldiers they visit when they return to the States.

* * *

Graduating from Chico State College in exercises held on the campus last Saturday morning was Suzanne Clegg, daughter of Mr. and Mrs. Herbert Clegg of Tahoe Park. Suzanne is a graduate of Tahoe Truckee High School.

* * *

Mrs. Dave McBride was hostess to the TST'ers at a dinner held at her Tahoe City home last Thursday evening.

* * *

Tom and Gean Pope entertained a group of friends at a fondue party at their Dollar Point home last Friday evening.

* * *

Danell Pomin, daughter of Bob and Vi Pomin of Tahoe City, graduated from Sacramento State College and participated in the commencement exercises held on the campus last Friday.

Among those in attendance at the exercises were her parents, Mr. and Mrs. Jay Shontz of Highland Greens, Mr. and Mrs. D. M. Brodehl of Sacramento, Mr. and Mrs. Ed King of Sacramento, Mr. and Mrs. Pete Perata and sons Bacci and Marco of Tahoe Park, Mr. and Mrs. E.R. Brodehl of Pacific Grove, Mr. and Mrs. Randy Pomin of San Francisco, Grandpa Pomin of San Francisco, Mrs. Bill Baxter of Tahoe City and Miss Dorothy Pomin of San Francisco.

* * *

Mrs. Neal Gates is back at her Highlands home after spending three days last week at Franklin Hospital in San Francisco.

* * *

Airman Don Bury, son of Leonard and Dorothy Bury of Tahoe City, was at Travis Air Force Base for fifteen hours last week and Len and Dorothy made a flying trip down there to visit with him. Don was on his way from Kyushu, Japan, where he was stationed at Itusuki Air Force Base for three months, to Kansas City, Missouri, where he will be located at the Richard Gebaur Air Force Base.

* * *

The February 3 birthday of Darryl Fenley and the January 31 birthday of Dave McBride were celebrated at a dessert bridge party for a group of friends hostessed by Mrs. Fenley at the Fenley residence in Tahoe Sierra Estates last Monday evening.

* * *

Visiting with Jay and Beccy Shontz at their Highlands Greens home last weekend were Beccy's brother and his wife, Mr. and Mrs. E.R. Brodehl of Pacific Grove.

* * *

His eighth birthday was celebrated by Jon Gates of the Highlands on January 30.

* * *

Sue Kitchen, daughter of Bud and Elise Kitchen of San Jose and Tahoe Swiss Village, was graduated from Chico State College in exercises held on the campus last Saturday morning. Sue is returning to Chico State College for graduate work.

* * *

Weekending at their Dollar Point home last week were Mrs. John Fitzgerald and son John of Santa Rosa. Their house guest was an exchange student, Igor Cvetko, from Lubjana, Yugoslavia, who is living with them at their home in Santa Rosa.

Igor, who is majoring in mathematics and science, comes from a musical family and his father, Cyrill Cvetko is the noted conductor of the Slovenska Philharmonic Orchestra.

Extend Date For Stickers

Californians got a 10-day "license plate sticker reprieve" Monday from Gov. Ronald Reagan.

Today would have been the deadline for 1969 registration stickers, but because of statewide flooding and snowstorms, the governor extended the deadline to Friday (Feb. 14) at 5 p.m.

Tree Cutting Case Coming Up

The power of the California Division of Beaches and Parks to enforce its rules and regulations may be tested this month when Richard Reuter goes on trial Feb. 24.

Reuter, who will go before a jury Feb. 24 in the Tahoe City Judicial District Court, is accused of cutting down 25 evergreen trees in Squaw Valley's Siberia Bowl without authorization from the state or the U.S. Forest Service.

Dick Johnston, manager of the state park portion of Squaw Valley and chief of the state parks Sierra Division, said the issue is not that 25 trees were cut down, but that an agreement the state has with the Squaw Valley firm's president, Alexander Cushing, was broken.

The Forest Service owns about 1,000 acres in the Siberia Bowl area which has been leased to the State of California under a special use permit. The state in turn leases the land to Cushing under an agreement that any trees to be cut down first must be marked and authorized by the Forest Service.

Reuter cut the trees in November. He was arrested on the same day by Leroy Hill, an official of the State Parks Department. Reuter's arraignment was Dec. 9 before Judge Robert Fuzazi. The accused did not appear but was represented by Cushing's attorney, F. R. Breen of Reno.

The complaint filed against Reuter charges a misdemeanor and carries a maximum penalty of a $500 fine or six months in jail.

Breen's appearance at the arraignment without Reuter led officials to believe Cushing's organization will pay any fines if Reuter is convicted.

Cushing was not available for comment and was believed to be out of the area on a trip. No other officials in his organization would comment on the case.

Mary E. Fleckenstein

Funeral services were held Monday in the Miller Funeral Home at Folsom for Mary Elvira Fleckenstein, 93, a former Truckee school teacher who died Thursday in a convalescent home.

She was a native of Truckee and taught school here in the early part of the century. Her first school was on the Prairie City road on Carson Creek where she taught in the 1890's.

After retiring, she moved to Folsom and had resided there since. Until recent years, she visited Truckee annually and had many friends and acquaintances here.

Surviving are two sisters, Lily Fleckenstein and Alice Trentman, and a brother, John, all of Folsom.

SIXTH ANNUAL PROGRESS EDITION

TAHOE '69

This year's edition, while taking a look ahead to the tremendous future that is in store for all segments of this famous area, will also highlight the attainments of recent months. Special emphasis is placed on the people of the two-state, six-county Lake Tahoe Basin, including the Truckee-Donner communities — how they live, work and play. Through numerous photographs it will be a tour of life, industry and the new developments in what we believe is one of America's most beautiful, fastest growing year-around recreation areas.

Bonanza Now Seen In 78 Countries

"Bonanza," the NBC Television Network's highly-rated western series starring Lorne Greene, Dan Blocker, and Michael Landon with David Canary, is in its 10th season.

Created by executive producer David Dortort, "Bonanza" was television's first hour-long series filmed in color when it premiered in the Fall of 1959.

Today the award-winning series is seen in 78 countries and has an international audience of some 400 million persons each week.

The stories center around Ben Cartwright and his two sons, Hoss and Little Joe, and Candy

The Cartwrights' vast ranch is named the Ponderosa after the great stands of pine in the Sierra Nevada mountain range near Lake Tahoe.

GIANT CREAM PUFF – Snow last week piled whipped cream high as evidenced by this huge cream puff that greets motorists traveling west on Highway 28 and entering Kings Beach. –Sun Photo

Scholarships Are Available

A wide variety of scholarships are available to Sierra College students, according to Martin Taylor, Dean of Student Personnel Services. "We have over twenty different scholarships and many of them are in special areas which should appeal to practically all students."

Among those available are: Four general scholarships offered by Alpha Gamma Sigma Honor Society, Easter Seal Society of Placer County and the Robert Sloan Fouke grant. Seven scholarships are available for freshmen students such as the American Association of University Women, Capital Area Association; Educational Office Employes, The Cowbelles Scholarship; Auburn Kiwanis; Sierra College Faculty Association; and PlaVada (California School Food Services.)

Twelve schoarships are offered to sophomores. These include the American Legion Post 130 of Nevada County; The Enoch Robbins Memorial; Nevada City Rotary; Phi Eta Epsilon; Tenco Grant; the Raymond Underhill Award.

While these scholarships are offered to SC students, Taylor reminded those interested in applying that the deadlines and requirements vary and additional information is available from his office.

WINTER OASIS – Motorists taking the Donner Lake off–ramp from Interstate Highway 80 last week rounded banked snow to enter the restaurant, bar and service station area hidden by snow. An imitation banana tree blew in the breeze with a "chains services" sign beside it. – Sun Photo

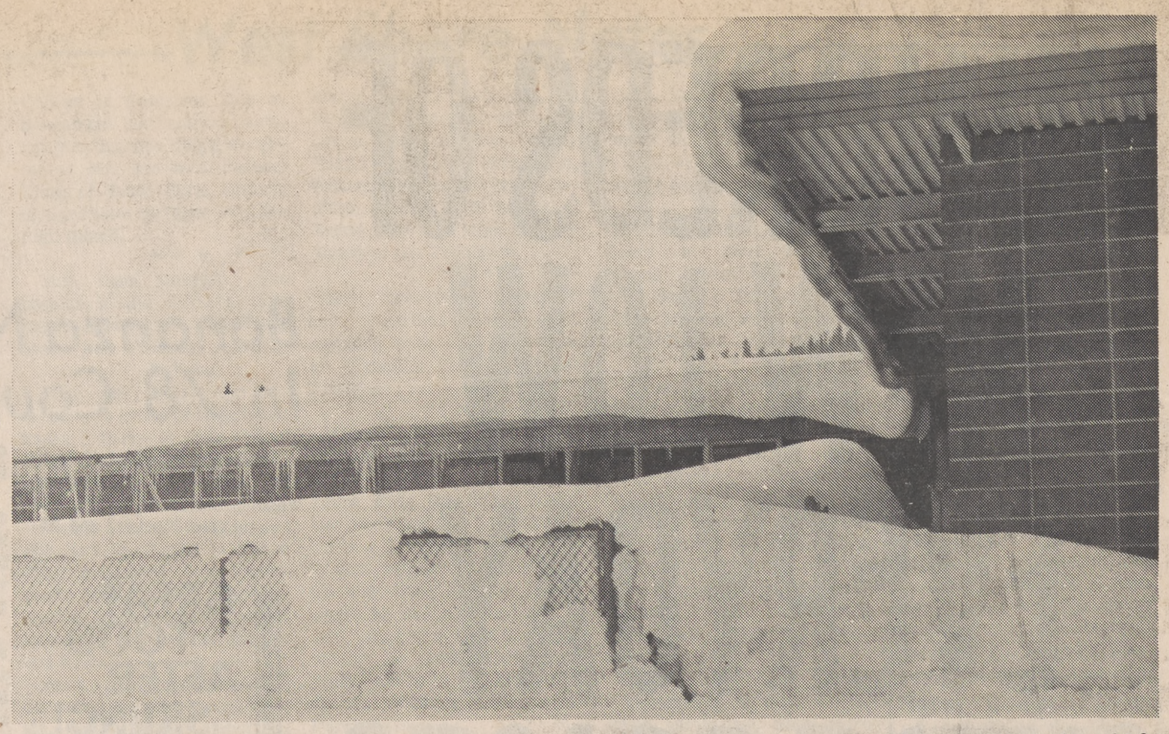
Yearbook Editor Is Named

JOAN GAINES, sophomore student at Sierra College, has been appointed to the position as Editor of the college yearbook the SIERRAN. Joan has been active as a member of the campus paper, the SIERRA DORADA, and is currently serving as its Feature Editor. Following her graduation in June, she plans to continue her studies at either Chico or Sacramento State College.

Joan graduated from Placer High School in 1967 and is a resident of Auburn. Her parents are Mr. and Mrs. Leo Gaines.

Today's Chuckle

A procrastinator is one who won't take "now" for an answer.



WHERE, OH WHERE – Has my little school gone? Wind driven snow drifts and heavy blankets of falling snow almost obliterated Truckee Elementary School which opened last Thursday after a three–day closure to clear the roads for the school busses. – Sun Photo

George Celebrates First Birthday

This has been a big week for George on the Sierra College campus. He celebrated his first birthday and the members of the Life Sciences Department went all out to see that this would be a week he'd really remember. In a way George is becoming quite a famous personality all over the country. What's so unusual about George?

George is an octopus. What's more, he was born on the SC campus. According to Dr. Ray Underhill, Chairman of the Life Sciences Department at the college, "George is the only living octopus in history that was hatched by college students and lived. Last year we went to Baja, California, and students collected samples of marine life for the classes in Biology. Students successfully hatched fifteen octopus eggs, but George is the lone survivor."

Already twentyfour inches in diameter, the octopus will grow eventually to over three feet. Living in his own saltwater tank, George has built his own den under rocks. Originally fed shrimp larvae when first hatched, he now will come to the surface and reach for crabs which students hold out for him.

Nobody knows for sure whether George appreciated the cake and candle prepared for his first birthday celebration. He paid much more attention to the juicy crabs than all the excitement around his tank.

But, what else can you expect from an octopus who hatched from an egg over a hundred miles away from the sea and who has spent his entire life at college?

Conservation Head Names Chairmen

William H. "Bill" Lambert, new chairman of the Nevada County Conservation Council, plans a year of vigorous and constructive activity in 1969. Never before, Mr. Lambert feels, has there been such a crying need for effective action by all conservationists to combat the snowballing environmental pollution which threatens to extinguish all life on this planet unless we immediately start actions to reverse this trend.

Mr. Lambert's fellow officers for 1969 are Joe Ruess, vice chairmen, Richard Caddy, secretary, and Dale Branchcomb, treasurer.

At the January meeting, Lambert appointed the following as committee chairmen, to work with him as his executive staff: stream pollution; Jack Witwer; roadside and public dump clean–up: Ted Waddell; land use and outdoor recreation: Gene Andreucetti; community horticultural projects: Joe Ruess; schools: Mrs. Elizabeth White; conservation awards: John Underwood; public speakers: Dr. E. J. Best; finance: Dale Branchcomb; organizational liaison: John Gallegos; "Show Me" trips: John Underwood; publicity: Bob Paine; legislative action (new this year): Joe Ruess.

Most members present volunteered to work on one or more committees.

Any citizen of Nevada County who believes in conservation of our natural resources and is willing to do something about it is invited to attend monthly meetings, held on the fourth Thursday of each month, 9:30 a.m., in the conference room at the Nevada County Fairgrounds. Those wishing to aid in committee work may phone secretary Richard Caddy at 265–2451.

County Job Exams Set

SACRAMENTO - Examinations for Clerk I and II have been scheduled for March 8 to fill positions in 31 California county welfare departments.

Salaries are set by county boards of supervisors and are varied. Candidates may file for more than one class on the same application; however, a person can file for one county only and will be scheduled for testing in that county.

Positions will be filled at two levels: one for persons who have had no clerical experience, and a higher level for persons who have had at least one year of qualifying experience. Jobs involving typing and stenography require valid certificates of proficiency. Applicants must be high school graudates or equivalent.

Full examination requirements and application forms may be obtained from any Merit System county welfare department or from the Merit System Examining Agency, 1217 H St., Sacramento 95814. The final filing date for applications to take these examinations in Feb. 7.

Sharing the Risk

NEW YORK—People who buy property and liability insurance actually are participating in a risk-sharing venture, the Insurance Information Institute notes. In other words, many persons make small contributions in the form of premiums to protect themselves against severe loss or financial hardship in the event of misfortune.

HEADLINER – Popular Pat Paulsen holds forth at Harrah's Reno Headliner Room Jan. 31 and Feb. 1. The Goldiggers, Moro–Landis Dancers and George Hernandez and his Orchestra will be featured with Paulsen.
